TAMMANY REPUDIATED; BAY STATE DEMOCRATIC

Democratic Leaders in New Jersey Claim a Safe Plurality For Fielder For Governor—Massachusetts Elects Walsh, Democratic Candidate, Governor, While Blair Lee Was Chosen Senator in Maryland—Three Democratic Congressmen From New York—State Goes Republican—Mitchell and Sulzer in New York City.

Election returns at a late hour tonight showed a complete triumph for the Democrats in Massachusetts where a Governor and State ticket were chosen in a four-cornered fight; the selection of a Democratic Governor and State ticket in Virginia without contest; the ascendancy of fusion over Tammany in New York City, with indications of Republican victory for the New York Assembly and judicial ticket; and a close fight for the State ticket in New Jersey, where President Wilson and administration forces fought to elect James J. Fielder to the Governorship.

In Maryland a Democratic Senator was chosen.

In Massachusetts, David I. Walsh, Democrat, present Lieutenant Governor, was elected Governor by a plurality of about 50,000 over Augustus P. Gardner, Republican; Charles S. Bird, Progressive, and Governor Eugene N. Foss, Independent. Henry C. Stuart was chosen Governor of Virginia, together with an entire State ticket, Republicans and Progressives having declined to name candidates because of inability to agree on a united ticket.

New Jersey Safe.

Returns from New Jersey were delayed though Democratic leaders claimed a safe plurality for James J. Fielder for Governor over Edward C. Stokes, Republican, and Everett Colby, Progressive.

In the early returns Stokes and Fielder were running neck and neck. The Democrats claimed Hudson county for Fielder by 25,000, while Republican leaders asserted supremacy for Stokes. Fielder, who succeeded President Wilson as Governor of New Jersey, had the support of the National administration, several members of the cabinet taking the stump in his behalf. President Wilson and his policies were made the dominant issue.

In New York City the triumph of the fusion ticket was assured and late returns from the State indicated a Republican majority in the General Assembly and the selection of a Republican Chief Judge of the Court of Appeals and nine Supreme Court justices.

For United States Senator Maryland chose Blair Lee, Democrat.

Democracy triumphed also in the 20th New York Congressional district where Jacob H. Canter was elected; the 13th New York, George W. Loft succeeding the late Tim Sullivan, and the Third Maryland district, Charles P. Coady being the choice.

In the Third Massachusetts district, Calvin D. Paige, Republican, was chosen to succeed the late William H. Wilder.

Fusion Wins Everything.

New York, Nov. 4.—Fusion carried New York City today, electing John Purroy Mitchell mayor by approximately 75,000 plurality and retaining control of the important board of estimates by a safe margin.

Tammany Hall's nominee for the mayoralty, Edward E. McCall, was defeated by one of the biggest pluralities ever given against a candidate of the organization and as late returns came in it looked as if Tammany might not even save the New York county offices. The big vote for Mitchell pulled through by narrower margins the fusion candidates for president of the board of aldermen and comptroller, George C. McAneny and William A. Prendergast, against whom the Independence League, as well as Democratic organization candidates were running.

Apparently, with the exception of Assemblymen in the districts which usually go Democratic and minor borough officers, the opposition to fusion elected only one of its nominees, Maurice E. Connolly, for borough president of Queens. The fusionists elected borough presidents in Brooklyn, the Bronx and Richmond, and apparently also in Manhattan. The result thus indicated would leave Tammany but one vote out of the 16 in the board of estimate, which controls the city's purse. A fusion majority in the board of aldermen also seems assured.

In the Sixth Assembly district William Sulzer, recently deposed as Governor, was elected on the Progressive ticket.

Tammany leaders early conceded the election of Mitchel, but it was not until nearly 11 o'clock that they would concede the board of estimate to fusion.

"It looks as if we had lost everything," Secretary Thomas Smith, of Tammany Hall, finally admitted.

Charles F. Murphy, leader of Tammany Hall, followed shortly with a brief statement:

"The result speaks for itself," he said, "Mitchel has been elected by a majority of the voters. His opponents join in the wish that he may have a successful administration and hope that it will be of substantial benefit to the city."

McCall Sends Congratulations.

Former Judge McCall, the Tammany candidate, retired early. He took the announcement of his defeat calmly when told over the telephone that the returns spelled Mitchell by a big majority.

"Is that so?" said Mr. McCall. "I have been playing golf all day and I am tired. I will send a telegram of congratulation to Mr. Mitchell and go back to bed."

Mayor-elect Mitchell declared the result was not a personal triumph, but a victory for the cause of good government.

"I shall be mayor for all the people of New York and not for any faction, division or party," he declared in a statement. "I have but one ambition, and that is to make New York City the best governed city in America."

When Mr. Mitchell arrived at fusion headquarters he was asked:

"What are you going to do about Murphy?"

"By not recognizing either him or any one connected with him, I am going to do all I can to drive him out of business."

A foregone conclusion of the balloting today was re-election of Charles S. Whitman to the district attorneyship. He was a candidate on nearly all the many tickets.

Results From New Jersey.

Trenton, N. J., Nov. 4.—Indications point to the election of James F. Fielder, Democrat, as Governor, by a plurality of about 15,000 over Edward C. Stokes, Republican. Only a light vote was cast for Everett Colby, Progressive candidate, probably 40,000 as compared with 145,410 received a year ago by Col. Roosevelt for President.

Fielder's vote in the returns at hand is running slightly below that received by Woodrow Wilson a year ago, which was 158,289.

Stokes' vote probably will exceed 150,000 as compared with 88,838 received by Taft last year.

Estimates from Hudson county, Fielder's home county, show that Fielder has carried it by 20,000; that he will have 3,000 in Monmouth; 1,500 in Middlesex and 1,000 in Union.

Stokes apparently has carried Essex county, the home of Colby, former Senator James Smith, Jr., and former Democratic State Chairman Nugent, whom Fielder on the stump accused of working against him.

Late returns indicate that James F. Fielder, Democrat, for Governor, has a plurality over Edward C. Stokes, Republican, of at least 20,000.

The Democrats have elected five of the eight State Senators.

With the hold-overs next Winter's Senate will stand 12 Democrats, to nine Republicans.

The complexion of the next Assembly will depend upon the result in Essex county. If the Democrats elect their twelve candidates in Essex they will control the Assembly by a good majority.

Late returns from Essex county indicate that the Assembly ticket was carried by the Democrats. If this estimate is correct the Democrats will control the Assembly by a vote of 40 to 20.

New York Republican.

New York, Nov. 4.—Sweeping gains were made by the Republicans all through the State today, following a campaign in which the issue of "Tammany rule" was raised with almost as much vigor outside New York city as in the campaign here. Indications late tonight, based on incomplete returns, were that the Democrats had lost control of the lower branch of the Legislature.

Returns from 118 of the 150 assembly districts showed the election of 75 Republicans, 36 Democrats and 5 Progressives, with 2 in doubt.

Nine of the successful Democratic candidates and 8 of the Republicans were endorsed by the Progressives.

A spectacular feature of the election was the triumph of ex-Governor William Sulzer, elected to the Assembly on the Progressive ticket, in the sixth district.

Municipal elections were held in 34 cities. Returns from 18 showed the election of 8 Republican mayors, 4 Democrats, 3 Fusion, 2 Progressives and 1 Citizens' Party.

Nine judges of the Supreme Court and 2 judges of the Court of Appeals were elected. In Erie county, Herbert H. Bissell, Democrat, and Harry L. Taylor, Republican, were elected to the Supreme Court. Incomplete returns from other counties showed Republicans in the lead.

Two Democratic members of Congress were elected, both replacing Democrats. In the thirteenth, George W. Loft was elected to fill the vacancy caused by the death of Timothy D. Sullivan, and in the twentieth, Jacob H. Cantor was chosen to succeed Francis Burton Harrison, recently appointed Governor General of the Philippines.

Schenectady's Socialist mayor, George R. Lunn, was defeated. He was opposed by a Fusion ticket headed by J. Teller Schoolcraft. The Progressives gained their most striking victory in Syracuse. Louis Will, their candidate, defeated James E. Dolan, Democrat, and Eugene J. Mack, Republican, in a close rase.

Rochester, Binghamton and Albany were carried by the Republicans, and Buffalo by the Democrats.

Split Difference in Ohio.

Columbus, Ohio, Nov. 4.—State issues, involving constitutional amendments for a smaller Legislature, State and county short ballots and initiated anti-shipping liquor bill, were lost sight of in tonight's returns on the Ohio election. These issues were crowded out until a late hour by interest in mayoralty contests in many cities.

Late tonight Mayor Newton D. Baker, Democrat, of Cleveland, was leading his opponents by about 1,000 votes and in Cincinnati former Judge Spiegel, Republican, was running ahead of Mayor Hunt, Democrat, by about 2,000.

Former State Senator Carl Kellar, Republican, will be the next mayor of Toledo. Mayor George J. Karb, Dem-

(Continued on Page Two.)

HARVESTER CASE CONTINUES

Argument for the Defense Opened—International Harvester Company Property Worth Over Sixty Million Dollars.

St. Paul, Minn., Nov. 4.—Judge William D. McHaugh, fighting the government's suit for dissolution of the International Harvester Company, today in the United States District Court pictured the concern as a great educational and beneficial force. He assigned to George W. Perkins credit for this achievement.

"One hundred and twenty millions of capital were put into this concern," he said, "and of this amount, one-half, $60,000,000 of stock, was issued for cash. The rest was put aside to cover the properties of the various large concerns that went into it.

"Now I desire to impress upon this court that this $60,000,000 in property actually existed. The most elaborate appraisal ever made in this country was made on the properties of the firms about to enter the International Harvester Company. It was found that these properties were worth more than $60,000,000, more than the stock issued to cover them."

Judge McHugh attacked the government's charge that the subject of foreign trade was an afterthought. He declared that the naming of the company was done particularly with a view to the matter of foreign trade.

Edward A. Bankcroft, of Chicago, general counsel for the International Harvester Company, followed Mr. McHugh. He became sarcastic in his attack on the Department of Justice's brief; said there was no evidence to sustain six or seven charges and alleged that five of them had been dropped out of the case and had not been mentioned.

Chinese President Is Having Trouble

Peking, Nov. 4.—The struggle between the Chinese parliament and President Yuan Shi Kai has brought about drastic action by the President.

Lengthy Presidential proclamations were issued at midnight expelling the Kwo Ming Tang party numbering more than 300 members from parliament.

The proclamations recount the difficulties with which the government has been struggling since the Manchu regime and describe disasters which are certain to follow if parties such as the Kwo Ming Tang are permitted to exist.

The Kwo Ming Tang party formerly was headed by Dr. Sun Yat Sen, the first provisional President of China, who is now in exile. Members of the party have fought consistently for the curtailment of Yuan Shi Kai's authority.

A crisis was reached last week when the draft of the proposed constitution made the President absolutely dependent on the parliament.

Martial law is in operation in Peking. The authorities are engaged in making arrests and summary executions which have been numerous since the rebellion began, it is understood will continue.

At various legations the opinion is held that only by strong action can the President prevent the disruption of China by her own people. Very little has been accomplished by parliament, which has devoted its time to opposing the President since it convened while disorders are spreading.

REQUEST TROOPS.

Riot Over Elections Results in Two Being Hurt.

Indianapolis, Nov. 4.—Governor Raiston received a telephone request at 6:30 o'clock tonight asking that troops be rusned to Gary, Ind., where it was said the police were unable to quell election riots.

The county coroner and a politician are reported probably fatally hurt. The Governor is awaiting further information before taking any action.

Governor Ralston, after talking with Mayor Knotts at Gary, over the long distance telephone, refused to send troops to Gary. The mayor said conditions there had been exaggerated and the Governor declared it would be impossible to get the State militia there before tomorrow when they would not be needed.

INOCULATE SOLDIERS.

To Render Them Immune to Typhoid Fever.

Trinidad, Colo., Nov. 4.—General orders to inoculate every member of the Colorado National Guard on guard in the mine strike district to render them immune to typhoid fever were effected today. Several companies have been exposed at the Ludlow tent colony.

No typhoid exists in the tent colonies and sanitary conditions are good, declares Dr. B. B. Boshoar, chief physician for the strikers. Four cases, he said, have developed recently at Ludlow, but not in the tents.

RESULT OF MUCH LABOR.

Spending of Thirty Million for Good Water and Aqueduct.

Los Angeles, Cal., Nov. 4.—Eight years of labor and the expenditure of nearly $30,000,000 will have their fruition tomorrow when the water of the Los Angeles aqueduct, drawn from the high Sierras 260 miles eastward, is turned into the big San Fernando reservoir, 23 miles north of the city.

Caravans of automobiles began tonight taking crowds out to the reservoir which will be the scene of the initial features of a two days' celebration.

STRIKE-BREAKERS GO UNPROTECTED

Thirty Policemen in Indianapolis Refuse to Ride Street Cars With Them.

ONE MORE DEATH RECORDED

Revolting Officers Hand in Their Badges, But Are Ordered Back on Patrol Duty—Charges Will be Preferred.

Indianapolis, Ind., Nov. 4.—The abrupt refusal of 30 members of the police force to ride with strike breakers, caused the fourth day of the street car strike to pass without car service here. The policemen turned in their badges which were returned with orders to remain on patrol duty. It was announced that charges will be preferred against them after the strike has been settled.

An unusually large number of men were on the streets due to the election holiday, but little rioting was reported. The strikers and sympathizers gathered at a large meeting on the court house grounds and cheered several ministers who counselled them to avoid violence. Resolutions denouncing violence were passed by the strikers.

The refusal of the police to act came when a car was manned by strikebreakers for a trial trip. The first three squads of ten policemen refused to get on the cars, and the reserve squads protested so vigorously that it was decided to give up the trip.

Preferred to Walk.

The policemen said they would march with the car, would fight in the streets, use their guns and clubs at risks to themselves and face the missiles of the crowd, but they would not board the cars.

Mayor Shank modified a former statement attributed to him defending the police. "After my conferences of the last few days," he said, "I believed the lives of all policemen running on the cars were in danger and I do not want any bloodshed. When the police are sufficiently reinforced, and I believe that can only be done by the State militia, I will see that every policeman does his duty."

Another death directly traceable to the strike troubles resulted today. John Brogan, who was shot October 23rd during a riot in the downtown district, died of his wounds. Brogan took part in a parade after a union meeting. James Gorman, a conductor was charged with the shooting. Chas. Fisher, strike breaker, of Chicago, was arrested on the charge of shooting Tom Carleton in the fight at the Louisiana street barns.

Rumors that companies of militia had been ordered to prepare to come here at a minute's notice were denied by Governor Ralston.

DEFENSE SCORED.

In Proceedings Against Mendel Beiliss for Murder.

Kiev, Russia, Nov. 4.—The defense scored today in the proceedings against Mendel Beiliss, who is on trial for the alleged murder of the Christian boy Yushinsky, when Profs. Kokovsoff and Tihomiroff, theological experts, ridiculed the idea that the Jews practiced ritual murder.

Prof. Kokovsoff, who is attached to the St. Petersburg University and is a relative of the Russian Premier, said:

"Were I told that the body of a child had been drained of its blood, and were it proved to me that this had been done by a Jew, the supposition that the crime had been perpetrated for the purpose of eating would be less absurd to my mind than the theory of ritual murder."

The witness could find nothing in the Talmud, he said, which directed the ritual murder of Christians.

TRAFFIC REPORT.

Showing Shipment of Ores From All American Ports.

Duluth, Minn., Nov. 4.—Reports on the ore traffic up to Saturday last from all the ports show that 37,942,412 tons have been shipped since the 1913 season opened. This is 2,348,118 tons more than was shipped in the corresponding period of 1912. It is several thousand tons more than the total shipment last year.

OUTLINES

No New York markets yesterday. Holiday on account of election.

Policemen in Indianapolis yesterday refused to ride on cars with the strike-breakers imported from Chicago and other places.

The first President of China is having trouble with his Assembly. He has expelled all members of one political party having seats in that body.

Secretary of State Bryan denied that an ultimatum had been sent to Mexico and in doing so declared that each move made by the State Department would not be published in the papers.

The returns from the elections show as far as could be ascertained last night, a general Democratic victory. Mitchel was elected mayor of New York over McCall, the Tammany candidate.

The New Senators who remained in Washington yesterday spoke very much like there would be a caucus held over the currency bill to find out what progress was being made if for nothing else.

Hearing in the Harvester Trust case was continued yesterday with argument for the defense. The value of property owned by the two companies composing the so-called trust is over 60 million dollars.

CHINA PLANNING MANY REFORMS

Commissioners Visit America To Study Our System of Government.

MAKES STEADY PROGRESS

Business Improves and Trade With Interior Growing—Inquiry Into Judicial System with Reference to Judges.

New York, Nov. 4.—The Chinese government plans many reforms in its various departments, according to Lo Tong, Hu Chen-Shin and Far Sung, the judicial commission which has just arrived here. Several commissions of investigation have been sent to this country and Europe by heads of the different departments. Upon their report will depend what sort of legislation the Chinese Parliament will adopt in these matters.

Messrs. Lo, Hu and Far will make an inquiry into the judicial system of the United States with especial reference to the judges and the courts, prisons and reformatories. Mr. Hu is senior clerk of the ministry of justice, and is a graduate of Tien Tsin University. Mr. Lo is chief of the criminal department of the ministry of justice. He is a graduate of the Imperial Japanese University. Mr. Far represents the department of finance on the commission.

"Everything is quiet and orderly in Peking," said Mr. Hu in answer to a question. "The government is making steady progress. Business is improving and this is true not only of Peking but all through the country. Trade is beginning to flow between the interior and the seacoast.

"Our Parliament soon will take up the question of executions. The old method was by cutting off the head. Of late there has been a great deal of sentiment against such a barbarous and cruel method of putting a criminal to death, and since the revolution most executions have been by shooting. We have been very much interested in the matter of electric execution, and there has been considerable debate as to which was the more humane method.

"This commission is particularly interested in prisons and we shall learn all we can about the workings of your reformatories."

COLUMBIA ELKS.

Will Build $60,000 Home at South Carolina Capital.

Columbia, S. C., Nov. 4.—The Elks of Columbia are taking final steps looking to the erection of a $60,000 Elks home. The company has been chartered and a building site purchased. The location of this site was not stated. Plans of the order are to float bonds sufficient to erect the building, which is to be modern and well equipped in every particular.

New members are rapidly being added to the rolls of the Columbia lodge, which now has a membership of about 200. The lodge is in fine financial condition. The need for a home has been felt for several years, officials of the lodge say, and it has now become a necessity that one be secured.

The lodge officials and the incorporators of the Elks' Home Co., declined to state their plans fully, owing to the present incomplete stage of the development.

SPANISH MURDERER SHOT.

Officer Executed for Brutal Killing of Rich Proprietor.

Madrid, Nov. 4.—A firing squad of Spanish troops at dawn Monday executed Capt. Manuel Sanchez, a Spanish army officer found guilty by a court martial of the murder of Don Garcia Jalon, a wealthy land owner last May. Detachments of all the regiments in the garrison witnessed the execution.

Capt. Sanchez was tried and condemned for the crime as a sequel to the confession of a woman, Louisa Sanchez, said to be his daughter, who was sentenced to 12 years' imprisonment as his accomplice.

Jalon was missing for several weeks after he had won about $1,000 at cards and the evidence showed that he had entered the Sanchez flat and was murdered there by the officer who with the woman cut up the body and threw it into an adjacent sewer.

PREFERS TO WORK.

Polish Catholic Priest Will Sell Papers Rather Than Charity.

Chicago, Nov. 4.—Rather than continue to accept $50 a month from a benevolent society for pensioned priests, the Rev. Michael Piplatz, for 30 years pastor of the St. Joseph Polish Catholic church, is going to sell newspapers in Chicago's streets.

Yesterday he came here from Desplaines, Ill., where he has been in retirement since last May and decided to put up a news stand at State and Madison streets. This inscription will hang above the stand: "This is Father Piplatz, who for 30 years served his people in St. Joseph's parish at Armitage avenue and 48th street, and in South Chicago."

The retired Polish Father declared that it is not just to the benevolent society to take its money when he is able to work.

Seattle, Wash., Nov. 4.—The railway department of the American Federation of Labor met here today to consider the Newlands arbitration bill. The railway men are considering asking the American Federation of Labor, which convenes tomorrow, to aid in obtaining an extension of the provisions of the bill to include shopmen as well as men in the operating department.

BRYAN DENIES THAT ULTIMATUM ISSUED

Declares That Government Does Not Have to Publish Every Movement

DISCUSS THE CAUCUS IDEA

Few Remaining Senators Want It to Find Out Progress Currency Bill Has Made in Committee. Democrats Firm.

Washington, Nov. 4—The movement for a Senate Democratic caucus to discuss the administration Currency bill gained momentum today in the gossip among the few Senators left in Washington.

Dissatisfaction with the tentative decision of the Banking and Currency committee to reduce from 12 to four the number of regional banks planned in the new system was given as the ground for the propcsal to call a caucus. This decision of the committee has aroused those Senators who are most ardent in support of the administration plans.

"Some of the Democrats outside of the Banking and Currency committee are anxious to know just what the committee is doing" said Senator Hoke Smith, of Georgia, today. "For that reason a caucus has been suggested as a means of informing the Democrats as to just what is going on in the committee. I think a caucus would impress the members with the strength of the opposition to the reduction of the number of regional banks to four. There should be eight or nine banks and we will not consent to a lesser number."

Senator Smith said that he did not think any attempt would be made to make the caucus binding on Democratic Senators to vote for any particular bill.

Shamokin, Pa., Nov. 4.—Martin Moran, a survivor of the Titanic disaster, was killed today by a rush of coal at Natalie Colliery. He was a sailor on the big liner and when she went down he jumped into the ocean, swam to a boat and was saved.

Steamer Strikes on Submerged Iceberg

St. Johns, N. F., Nov. 4.—The Furniss Line freighter Manchester Commerce dragged her way into this harbor today, her bow crumpled and her pumps racing madly to keep out water pouring in through the shattered hull.

The steamer, which carries no wireless, crashed head-on into a giant iceberg at 2 o'clock Sunday morning, while about 100 miles east of Belle Isle.

The 'berg loomed out of the blackness so suddenly that there was no time to change the steamer's course, and it swept at full speed into the ice. The steel prow of the liner was crumpled up like a piece of tin, as far aft as the collision bulkhead.

Captain Couch headed his ship for St. Johns. A storm swept the sea, and the steamer had a hard time making port. Torrents of water poured into the hold through the shattered bow. The pumps constantly in operation, scarcely could hold their own. The ship reached here in sinking condition.

The steamer carried 6,000 tons of general cargo and a crew of forty officers and men. She is built of iron, and registers 5,623 tons gross.

PARCEL POST STATION.

One Will be Established at Raleigh, Overman to State.

(Special Star Telegram.)

Washington, D. C., Nov. 4.—Acting upon the urgent request of Representative Pou, Second Assistant Postmaster General Stewart today promised the Fourth district Congressman that a parcel post terminal station would be established in Raleigh not later than June 1st of next year and immediately, if the public spirited citizens of Raleigh would supply a building large enough to hold the office force at a reasonable rental.

The appropriation for a building will not be available until June. Therefore, unless Raleigh can supply a house for the men who will be employed in this work the station cannot be established until the middle of next year.

Senator Overman left here tonight for Smithfield where tomorrow the Junior Senator will deliver an address before the Johnston county fair. It is not at all improbable that Mr. Overman will be supplied with a pair of overalls, pick and shovel and asked to help make the roads in Johnston county more passable.

Joseph Brown, of Chadbourn, was here in conference with Senators Simmons and Overman. The Chadbourn financier, it is said, wants a job with the Federal government. It is believed he will be one of the few who will land. Mr. Brown will probably be given a place as deputy collector of the income tax. P. R. A.

SUPPLEMENTAL REGULATIONS.

New Rules Added to Those Governing Income Tax.

Washington, Nov. 4.—Supplemental regulations governing payment of income tax on notes given for interest, rents, or for other income accruing after March 1, 1913, were issued today by the Commissioner of Internal Revenue.

The regulation provides that when a note given for such purposes matures on or after November 1, 1913, the maker of the note, the "source" where the income originates, is required in paying the note to withhold the normal tax of 1 per cent where the amount is in excess of $3,000 unless a claim for exemption has been made under the law. In case an exemption is made the maker of the note shall withhold only on the amount in excess of the exemption claim.

WILSON IN NEW JERSEY

Admitted in Informed Quarters that Negotiations Have Been Proceeding in Pursuance of President's Plan.

Washington, Nov. 4.—The Mexican situation was the subject of widespread comment in Washington today, but the day's developments in official quarters added little of a definite or tangible character concerning the exact status of affairs.

The reports from Mexco City that a new and somewhat summary move had been made by the United States toward the elimination of General Huerta, brought no response from the State Department or other official sources, beyond a brief statement from Secretary Bryan that no "ultimatum" had been presented.

Whether some other communication less drastic than an ultimatum had been presented, Mr. Bryan positively declined to state, maintaining that the government should be free to shape its course of action in such affairs without defining each step through the press.

President Wilson left early to cast his vote in New Jersey, returning late this evening. Meantime Secretary Bryan remained at the State Department where there were no signs of unwonted activity beyond the constant inquiries concerning the reports from Mexico City of another urgent communication.

Negotiations Admitted.

In well informed quarters it was admitted that negotiations have been proceeding in pursuance of President Wilson's determination to secure the elimination of Huerta as a factor in Mexico. That this involved the delivery to the Mexican authorities of another communication was also admitted, though it was said this communication did not partake of the nature of an ultimatum. This much abused diplomatic term, it was pointed out, marks a stage in negotiations where one party notified the other than a compliance with certain demands must be made by a certain fixed hour and date, leaving it to be inferred that force would be used if necessary to bring about a compliance. The term is often popularly used to indicate an urgent diplomatic communication, that in effect is calculated to bring the negotiations to a definite issue and some officials suggested it probably was in this last sense that the term was used in reports of action taken at Mexico City.

The correspondence already published shows that President Wilson has from the beginning insisted that the United States government cannot recognize the legality of Huerta's claim to the Presidential office and also that the so-called elections held on October 26th in Mexico fall short of meeting the Washington view of the requirements of the constitution.

Consequently it was said today it was a logical deduction that this last note or communication was in the line of development of a policy which President Wilson has consistently pursued from the beginning and that in substance it amounted to a rather sharp reminder to General Huerta that the United States government now looked to him to meet its expectations and give way to some regularly constituted authority calculated to bring peace to Mexico by commanding the hearty support of the factions now at war. In communicating these views, however, it is said, the officials here are desirous of having their movements proceed in a normal and nominal manner without an over emphasis, which would imply that all the resources of diplomacy had been exhausted.

Air of Confidence.

An air of confidence in official circles is taken to indicate that the United States is satisfied that practically all the great powers have agreed to support the administration's policy, at least to the extent of observing a strictly neutral attitude and allowing the United States to test its own plan for restoring peace in Mexico.

Secretary Daniels reiterated today that three battleships of the second division of the Atlantic fleet would remain in the Mexican gulf waters until further orders, notwithstanding that four battleships of the third division have gone to Vera Cruz and Tampico.

Rear Admiral Fletcher, commanding the second division, will take command of the entire squadron. The New Hampshire and Nebraska will keep station at Tampico, while the Louisiana, Michigan, Rhode Island, Virginia and New Jersey will await developments off Vera Cruz.

Huerta Undecided.

Mexico City, Nov. 4.—The undercurrent of conversation at the National palace carried rumors regarding President Huerta's attitude in the face of Washington's demands that he retire, but the President himself was silent.

Huerta's intimates are familiar with the terms of the demands which they regard as practically mandatory. The communication states that unless Huerta retires immediately and thereafter has nothing to do with the conduct of affairs or the formation of a new government, the President of the United States will issue an ultimatum which, if rejected, will cause him to call upon Congress to authorize him to use sterner methods.

In the memorandum it is impressed upon Gen. Huerta that his complete retirement is the only step which will be acceptable. He is pointedly reminded that any attempt to leave as his successor any of the men connected with the coup d'etat by which he obtained the Presidency, or to utilize

in the proposed government any of those chosen in the recent elections, even those named as Congressmen would result in the definite breaking off of all relations.

Suggests a Plan.

It is suggested that Gen. Huerta be succeeded by some man or by some small group of men who will conduct the government temporarily and that it be understood that this man or group of men, shall immediately take steps to call new elections for the purpose of establishing a permanent government.

Gen. Huerta is reminded that the United States is anxious to avoid trouble both for the welfare of Mexico and to preserve international peace. He is finally urged to abandon power and to do it immediately, since the American government wil tolerate no further temporizing.

The report that Washington had sent a new communication to Gen. Huerta spread throughout the city, but aroused only casual interest. The special cabinet meeting called by the President for today was not held. This is taken to indicate that he is not yet ready to discuss the Washington demands with his ministers.

In addition to these seven dreadnaughts the gunboat Wheeling and the cruiser Tacoma are off Vera Cruz while the gunboats Petrel and Nashville are in Dominican waters not far away.

On the west coast the armored cruisers California and Maryland are at Guaymas and Mazatlan respectively. The gunboat Annapolis is also at Guaymas and the armored cruiser Pittsburg is en route to that port.

Quiet at Mexico City.

Mexico City, Nov. 4.—There was no indication here today that Provisional President Huerta has yet delivered any reply to the communication from the United States government telling him he must resign the Presidency without loss of time and that he must not leave as his successor any of his adherents whom he might be able to control.

In official quarters here as well as at the United States embassy, emphatic denials were still made today as to the transmission or receipt of the communication from the American government.

The only reference to the incident in the local papers today was that which occurred in Associated Press dispatches from Washington. These, when shown to Nelson O'Shaughnessy, American charge d'affaires, brought out a denial more or less technical, which was published here in connection with the dispatches.

Intervention Not Necessary.

Nogales, Sonora, Mex., Nov. 4.—Gen. Venustiano Carranza, head of the Mexican constitutionalists asked Dr. Henry Allen Tupper, of the International Peace Forum tonight to telegraph Secretary of State Bryan and learn if the reported American communication to Huerta indicated an intention to intervene with arms in Mexico.

The chief of the constitutionalists also desired Dr. Tupper to express to Mr. Bryan his belief that armed intervention would be uncalled for, since the constitutionalists were convinced that with the privilege of freely importing arms and war munitions they would be able to overthrow the Huerta regime in a short time.

On the other hand Gen. Carranza said it would require years for the United States to pacify Mexico.

To his original request presented Sunday to the American officials at Washington, Gen. Carranza added another tonight. He not only desires the embargo on the export of arms to Mexico lifted, but wants the privilege of transporting his soldiers over American territory.

From Germany.

Berlin, Nov. 4.—The reported communication to provisional President Huerta by the United States government caused a decided flurry in the Berlin Stock Exchange as well as in newspaper circles but less impression on the foreign office. There the belief was expressed that Washington would scarcely have taken such a step without previously consulting the European governments in accordance with Secretary Bryan's recent assurances.

France Offers Aid.

Paris, Nov. 4.—The French government is considering the possibility of offering in this moment of crisis its friendly services to the United States and Mexico.

No action has been taken, it is understood, beyond making informal inquiries at Washington and Mexico City, as to whether anything could be done to ease the present tension.

ACCIDENT IN SUMTER, S. C.

Policemman's Pistol Dropped from Pocket Wounding Lady.

Sumter, S. C., Nov. 4.—This afternoon Mrs. Geo. F. Epperson was painfully, but not seriously wounded, when a pistol dropped from the pocket of Policeman J. M. Lawrence and went off as it hit the pavement. The bullet struck Mrs. Epperson in the leg, but luckily missed the bone and inflicted a flesh wound. Mrs. Epperson was taken to the hospital at once and will probably have to remain there until the wound has time to heal.

The accident occurred in front of the W. H. Cobb five and ten cent store about 12:20 o'clock. Mrs. Epperson had come out of the store, where she had been shopping and Policeman Lawrence offered to crank the car for her. As he leaned over to crank the car, Mrs. Epperson was standing on the sidewalk only a few feet away directing him how to do this, when the pistol dropped and the explosion took place. Mrs. Epperson sank to the pavement, but was caught by Mr. Louis Lyon, who was standing near. In a few minutes she recovered from the first effects of the blow and was placed in an automobile and hurried off to the hospital. Her daughter, Mrs. C. J. Stimson, who was with her, followed in Mrs. Epperson's car. A crowd gathered in a few minutes after the accident, but dispersed soon after the automobile left for the hospital.

It was stated by Mr. Epperson this afternoon that at the hospital the wound was not regarded as serious, as none of the larger blood vessels had been cut, nor had the bullet struck the bone.

BETTER CABLE FOR JAPAN.

Government Seeking to Improve Communication.

Tokio, Nov. 4.—In consequence of the growing commercial relations between Japan and the United States, and in view of the opening shortly of the Panama canal, the Japanese government has entered into negotiations with the object of securing reduced rates for telegraphic communication across the Pacific ocean.

Much of the telegraphic business is now relayed by way of Europe, which is a less expensive mode of transmission, but Japanese officials believe the interests of the United States and Japan require the establishment of a cheaper system of direct communication.

Decatur, Ill., Nov. 4.—Clarence Fuller, 11 years old, of Mattoon, Ill., was arrested today on a charge of attempted murder following the shooting of a companion several days ago. Fuller was put in jail several weeks ago charged with stealing a horse.

TAMMANY REPUDIATED; BAY STATE DEMOCRATIC

(Continued from Page One.)

ocrat, has been re-elected in Columbus.

Little Interest Taken.

Philadelphia, Nov. 4.—Pennsylvania today elected two judges of the Superior Court on a non-partisan ballotlot. Little interest was shown and in many districts the vote was not counted.

It is probable that Judge John J. Henderson, and James Alcorn, both Republicans, were elected.

A proposed amendment to the constitution authorizing a bond issue of $50,000,000 for road purposes probably was defeated.

In Philadelphia the Republicans defeated the Fusionists, basked by the present reform administration, electing all minor municipal officers.

An unusually bitter contest in Pittsburgh resulted in the election of J. G. Armstrong as mayor.

Bay State's Story.

Boston, Mass., Nov. 4.—David I. Walsh, Democrat, was elected Governor today by a plurality estimated at 50,000. The remainder of the State ticket was in doubt when three-fourths of the election districts had reported shortly before midnight. The Democratic leaders claimed a complete victory for State officers, and the returns as far as tabulated, seemed to support this claim.

The Legislature continues Republican in both branches, with slightly increased majorities.

In the third Congressional district, Calvin D. Paige, Republican, was chosen to succeed the late William H. Wilder, Republican, in a close race.

Mr. Walsh, who succeeds Governor Foss, after one term as Lieutenant Governor, was elected to his preesnt office a year ago by nearly 200,000 votes, the greatest number ever received by a Democratic candidate for that office.

A feature of the election was the big vote polled by Charles Sumner Bird, Progressive candidate, who appeared to have a slight lead over Congressman Augustus P. Gardner, Republican, for second place. Governor Foss, originally a Republican, and three times elected as Governor by the Democrats, polled the smallest vote of the four leading candidates.

Maryland Goes Solid.

Baltimore, Nov. 4.—Based on incomplete returns, but which are regarded as a sure indication of the final result, State Senator Blair Lee, Democrat, has been elected to the United States Senate to fill the unexpired term of the late Isador Rayner, by an estimated plurality of from 30,000 to 35,000 over former Congressman Thomas Parrna, Republican, and former United States Senator George L. Wellington, Progressive.

Charles P. Coady Democrat, was elected to Congress from the third district in place of the late Representative George Konig.

The Democrats were victorious all along the line, electing Emerson C. Harrington State comptroller, Caleb C. Magruder clerk of the Court of Appeals, and retaining control of the State Legislature by probably an increased majority.

President at Princeton.

Princeton, N. J., Nov. 4.—President Wilson arrived here from Washington at 2:30 this afternoon, and immediately went to his home polling place to vote. On his way, he was cordially greeted by townsmen and Princeton students. He was finally compelled to stop and mount the steps of University Hall and address a crowd of several hundred students.

Mr. Wilson said he came to Princeton merely to vote, and was very glad to see all his old friends.

When the President arrived, the students were massed about the station, singing and cheering. Mr. Wilson started for the polling place, and the students fell in behind and formed a parade.

In his speech from the steps of University Hall the President said:

"The gentleman who seems to be in authority," Mr. Wilson indicating a cheer leader, "informed me that I can proceed no further without saying a word. I came here to vote for a very excellent man for Governor, the Democratic candidate. But I shall not indulge in politics. I only want to say how delightful it is to me to renew my acquaintance, and how pleased I am at your reception."

The students followed the President to the polling place, in a small fire house. The President voted after his brother-in-law, Dr. Stockton Axson. As Mr. Wilson came out, the students were still assembled. He laughingly said to them: "All over," which is one of the characteristic Princeton phrases for terminating all ceremonies.

The students then dispersed and the President drove away in an automobile for a short ride through the country. He left for Washington late in the afternoon.

Washington Unenthusiastic.

Washington, Nov. 4—Washington failed to get up much enthusiasm, about today's elections, but President Wilson returned to the White House tonight wearing a smile of satisfaction over returns from Massachusetts, Maryland New York and New Jersey. The President watched the New Jersey returns closely for the final confirmation of the success of the Democratic ticket in New Jersey, for which he had spoken and voted.

The election just about depleted the capital of interested officials, and those who remained received the news of general Democratic success with apathy. Senators and Representatives had either hurried home to vote or taken a holiday. The chairmen of the Congressional committees, Representative Woods, of Iowa, Republican, and Representative Doremus, of Michigan, Democrat, paid little attention to early returns. They were interested particularly in the results in Congressional elections in the third Massachusetts, the thirteenth and twentieth New York, and the third Maryland districts, which were slow in coming in.

Secretary Bryan watched the returns closely, getting the figures over the telephone at his home. He made no comment.

Sulzer Makes Statement.

New York, Nov. 4.—William Sulzer, ousted from the Governorship of New York last month by verdict of a high court of impeachment, was elected to the State Assembly today from the sixth district, by a sweeping plurality, estimated at an early hour at 2,000 or more. Sulzer ran on the Progressive ticket, and apparently polled more votes than his Republican and Democratic opponents combined. His old neighbors on the East Side rallied strongly to his support, and it was early apparent that he had swamped the opposition. There was jubilation unbounded in the former Governor's headquarters as the count began to record his victory. Sulzer himself was all smiles. He regarded his triumph as a personal vindication, he said, and issued a statement thanking his supporters and scoring Charles F. Murphy, leader of Tammany Hall, who he declared was condemned by the vote of the district.

"The people of the sixth assembly district," said Sulzer, in his statement, "think better of me than of Mr. Murphy. They know why Mr. Murphy removed me from the Governorship; they know when Mr. Murphy asked me to do wrong I refused to do wrong; they know when Mr. Murphy tried to bribe me, I defined his threats. The voters have now condemned Mr. Murphy; reversed the judgment of his high court of infamy, and vindicated me by the verdict of the polls, which, in the last analysis, is the opinion of mankind.

"From Mr. Murphy's high court of infamy I appealed to the higher court of public opinion. Mr. Murphy says there was no appeal from his court, but Mr. Murphy was mistaken; and he knows now that the judgment of the people can revise the judgment of any court."

Sulzer made his fight for election to the Assembly on the lines of the statement he issued tonight. His canvass was a whirlwind affair, demonstrative crowds greeting him wherever he spoke. He rarely went outside of his district, but his speeches within that territory were directed as much at th Tammany organization in its city-wide and State bearings as to an appeal to his immediate constituency.

President's Congratulations.

Washington, Nov. 4.—Just before midnight, President Wilson sent this telegram to James F. Fielder:

"My warmest congratulations. You did not need to call out the reserves."

Mr. Fielder's opponents have been quoted as saying that he was obliged to call upon the President for aid in his fight for the New Jersey Governorship.

Norfolk Returns.

Norfolk, Va Nov. 4.—With six precincts to near from, the Citizens' Party appears to have elected five of its six candidates for municipal offices. It appears also that their Legislative ticket is elected.

Edward J. Doran, commissioner of the revenue, appears to be the only member of the Organization to win.

James V. Trehy, leader of the Organization forces, was leading Robert W. Peatross, Citizens' Party, by 300 majority at midnight.

The Citizens' Party has elected P. C. Stanworth city treasurer; J. Bunyan Jones city collector; O. L. Shackleford commonwealth's attorney, and Claude L. Hudgins city sergeant.

Kentucky Democratic.

Louisville, Nov. 4.—The Democrats were victorious throughout Kentucky today, electing a large majority of the various city officers and State Legislators. An increased Democratic majority is assured for the next Legislature.

In Louisville John H. Buschemeyer, Democrat, was elected mayor by about 5,500 over Wood F. Axton, Progressive, who tonight charged fraud and announced that he would contest the election.

Indianapolis Democratic.

Indianapolis, Nov. 4.—In the mayoralty election here today Joseph E. Bell, Democrat, carried the city by a plurality of 8,458. His vote was 23,224. Dr. W. H. Johnson, Progressive, received 14,766 and Charles A. Bookwalter, Republican, former mayor, 14,315.

Bell had the active support of Thomas Taggert, Democratic National committeeman, and United States Senator John W. Kern. The entire Democratic ticket, including police judge, city clerk and a majority of the councilmen were elected.

Up-State Mayors.

Troy, N. Y., Nov. 4.—Cornelius F. Burns, Democrat, was re-elected mayor by a plurality of 4,426.

Auburn, N. Y., Nov. 4.—Charles W. Brister, Republican and Progressive, was elected mayor by 235 votes over Mayor Thomas H. O'Neil.

Amsterdam, N. Y., Nov. 4.—James T. Cline, Republican and Progressive, was elected mayor by over 1,000 plurality.

Johnston, N. Y., Nov. 4.—William H. Coughlin, Republican, was elected mayor. His vote was 629, against John T. Morrison, Democrat, 566; C. W. Smith, Progressive, 542, and Frank Hester, Socialist, 491.

Concord, N. H., Mayor.

Concord, N. H., Nov. 4.—Charles J. French, a granite cutter, was today elected mayor of Concord for the fourth time, receiving 2,749 votes to 1,932 for Edward J. Gallagher, an editor. No party designations appear upon the ballot under the present city charter but both men are Democrats.

Foss Congratulates Walsh.

Boston, Mass., Nov. 4.—Governor Foss conceded Lieutenant Governor Walsh's election as his successor at 7:45 and sent the following message to him:

"You have made a splendid fight. Accept my hearty congratulations.

"EUGENE N. FOSS."

President Pleased.

Washington, November 4.—President Wilson returned to Washington at 9:30 o'clock tonight from New Jersey, where he voted in today's election. He drove at once to the White House to get the election returns. Early news received on the train from Massachusetts, Maryland and New York had pleased the President greatly.

Rome, N. Y., Nov. 4.—H. C. Midlan, Democrat, was elected mayor by a plurality of 293. The present mayor is a Republican.

Schenectady, N. Y., Nov. 4.—J. Teller Schoolcraft, citizens' candidate, was elected mayor, defeating Mayor George R. Lunn, Socialist, for re-election by over 2,000.

Rochester, N. Y., Nov. 4.—Hiram G. Egerton, Republican, was elected mayor by approximately 5,000 plurality over George C. Stroud, Democrat and Progressive.

Poughkeepsie, N. Y., Nov. 4.—Daniel W. Wilbur, Republican, was elected mayor by a majority of 943.

Utica, N. Y., Nov. 4.—James Smith, Democrat, was elected mayor by 1,500 plurality.

Buffalo, N. Y., Nov. 4.—Louis P. Furhmann, Democrat, was re-elected mayor by plurality of about 6,500. The other Democratic candidates for city offices were elected by pluralities ranging up to 12,000. The vote with a few scattered districts missing was: Furhmann, Democrat, 27,818; O'Brien, citizens' 21,315; Stoddart, Republican, 12,109.

Syracuse, N. Y., Nov. 4.—Seventy districts out of 72 for mayor give Will,

Philadelphia, Nov. 4. — The claim was made at Republican headquarters tonight that the party ticket carried the city by from 40.000 to 45,000 plurality. Samuel P. Rotan, Republican, was undoubtedly re-elected District Attorney by a large plurality.

New York, Nov. 4.—Indications are that Davidson (Democrat) had been elected State Senator in the twenty-first district, to succeed Stillwell.

In the twenty-sixth district J. E. Towner, Republican, has been elected Senator to succeed Franklin D. Roosevelt by apparently 2,000 plurality.

New York, Nov. 4.—Jacob H. Canter, Democrat, was elected to Congress from the twentieth district.

New York, Nov. 4.—Thomas Smith, secretary of Tammany Hall, at 10:30 o'clock, said: "It looks like we have lost everything. Mitchel is elected by 100,000, and it looks as if we had lost every other place, including the New York county ticket."

New York, Vo. 4.—William Sulzer, deposed Governor, was elected Assemblyman from the sixth New York district. The Democratic and Republican leaders admitted his election at 10:30 P. M. Sulzer ran as a Progressive.

Boston, Mass., Nov. 4.—Returns for Governor from 796 out of 1,125 election districts, including Boston, give:

Bird, Progressive, 84,788; Foss, Independent, 15,712; Gardner, Republican, 88,705; Walsh, Democrat, 132,705. The same districts in 1912 gave: Bird, Progressive, 86,907; Foss, Democrat, 141,347; Walker, Republican, 104,526. Progressive, 9,680; Mack, Republican, 9,418; Nolan, Democrat, 9,057.

Pittsfield, Mass., Nov. 4.—Total vote for Governor, city of Pittsfield, gave Bird, Progressive, 907; Foss, Independent, 183; Gardner, Republican, 1,655; Walsh, Democrat, 2,035.

The vote of 1912 was: Walker, 2,126; Foss, 2,334; Bird, 949.

Citizens' Party Ticket.

Norfolk, Va., Nov. 4.—Incomplete returns indicate election of four of the six candidates for municipal offices on the citizens' party ticket.

Virginia Democratic.

Richmond, Va., Nov. 4.—Henry C. Stuart, Democrat, was today elected Governor of Virginia without Republican opposition, the entire State ticket being elected in the same manner. Less than one-half of the normal primary vote was polled, conservative estimates placing it at 50,000. The Legislature is overwhelmingly Democratic.

Bulletins of Interest.

New York, Nov. 4.—Vote for mayor with 240 out of 1,780 districts missing: McCall, 205,599; Mitchel, 297,102; Russell, 26,838.

Cleveland, Ohio, Nov. 4.—With official returns in from 250 of 459 precints, indications are that Mayor Baker, Democrat, will be re-elected by a majority of from 800 to 2,000. His majority two years ago was 17,000.

New York, Nov. 4.—Indications are that Suizer's plurality is large. Five out of 16 districts give him 916 to 694 over both Democratic and Republican candidates.

Pittsburgh, Mass., Nov. 4.—Calvin D. Paige, of South Bridge, Republican, was chosen to succeed the late William H. Wilder, Republican, in the special election tonight in the Third Congressional district. With one town missing Paige had a majority of 500 over M. Fred O'Connell, Democrat. Stephen M. Marshall, Progressive, was far in the rear in the three-cornered fight.

Cincinnati, Nov. 4.—The Democratic campaign committee at 11 o'clock conceded the election of Judge Frederick Spiegel, Republican candidate for mayor, and the entire Republican city ticket by pluralities of more than three thousand.

New York, Nov. 4.—At 11:30 o'clock Chairman Barnes, of the Republican State committee, claimed the election of 90 of the 150 members of the Assembly. These figures, he said, were based on almost complete returns from every county.

Bridgeport, Conn., Nov. 4.—Clifford B. Wilson, Republican, was today re-elected mayor of Bridgeport, after a bitter campaign, defeating his Democratic opponent, Frederick M. Mullins, by a plurality of 2,140 votes. Both the Socialist and Progressive vote showed a big decrease.

Pittsburgh, Nov. 4.—Dr. William Mehard Davidson, superintendent of schools of Washington, D. C., today was elected superintendent of Pittsburgh's public schools for four years at a salary of $9,000 a year. Dr. Davidson succeeds S. L. Heeter, who recently was removed from office on alleged charges immorality.

Boston, Nov. 4.—Returns for Governor from 1,023 out of 1,123 election districts give: Bird, Progressive 121,718; Foss, Independent, 21,442; Gardner, Republican, 117,658; Walsh, Democrat, 175,473.

Hunt Defeated.

Cincinnati, Nov. 4.—With three-

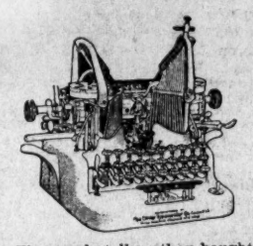
Why Not Try the 17c-a-Day Plan?

The beauty of The Oliver Typewriter 17-Cents-a-Day Plan is that it works out satisfactorily for everybody concerned.

This plan ties up a very large sum of the company's money in typewriters sold on time.

But we have an abundance of capital. We are glad to use our resources to bring this great business aid within easy reach of all who have use for typewriters.



Thousands tell us they bought their Oliver Typewriters without noticing the outlay.

Here's the way the Plan works:

You make a small first payment and get the machine at once.

Then save 17 Cents a Day and pay monthly, exactly the same as rent.

When you complete the payments, the typewriter is yours forever. And you pay only the regular list price.

The OLIVER Typewriter

The Standard Visible Writer.

is a salary-raiser, an income-producer, an aid to personal efficiency.

Oliver Typewriters are earning millions of dollars for their operators and owners.

They are helping hosts of ambitious young people to achieve successful business careers.

They are helping the small business to grow big and the big business to grow bigger.

They are trade-builders as well as revenue-producers and efficiency-makers.

The newest and best model Oliver Typewriter is sold on this popular plan. There is no extra charge for the famous PRINTYPE OLIVER—the only typewriter that prints print. Printype is conceded to be the greatest typewriter improvement of the century.

More than 15,000 Local Agents in the United States and Canada are making money selling Oliver Typewriters. This is proof positive of Oliver merit and Oliver popularity.

Write for particulars of the 17-Cents-a-Day Plan. Ask for Specimen of Printype.

INSURANCE INVESTIGATION

Kitchin & Manning Retained as Counsel by Commission—Teachers' Assembly in Raleigh—Greensboro Pastor.

(Special Star Correspondence.)

Raleigh, N. C., Nov. 4.—It is understood here that the special legislative commission for the investigation of the conduct of fire insurance companies in this State, will retain the law firm of Kitchin & Manning as special counsel for the direction of the investigations that the commission expects to inaugurate early in the new year.

This is taken to be an indication that the investigation is to be especially searching in the matter of charges of trust combination for exorbitant rates and kindred matters so persistently pressed the past six years or longer. Governor Kitchin, the head of the firm being retained as counsel, urged an insurance investigation three years ago in his message to the Legislature and is especially committed to the most thorough investigation policy. His law partner, J. S. Manning, is a former judge of the Supreme Court, who held his appointment on the bench by appointment of Governor Kitchin. According to the agreement of the special commission at its recent initial meetings here, the members are now making a special study of insurance matters that are to come under their inspection. The purpose of retaining counsel is to have some one paid to marshal the work of the commission to the best possible advantage and assure both dispatch and thoroughness in the work of the commission.

The Williams Bros. Co., of Yadkinville, received a charter today with $10,000 capital authorized and $5,000 subscribed by S. C. Williams and others for real estate and mercantile business. There is also a charter for the Aurora Telephone Co., of Aurora, Beaufort county, capital $5,000 for local exchange and rural connecting lines of telephone.

A notable case argued in the Supreme Court today was W. J. Jeaos vs. Seabnard Air Line, from Anson county, in which Jeans obtained judgment in the trial below for the value of goods lost in shipment and $50 penalty for non-delivery and an additional penalty of $50 for not settling for claim and penalty within four months. Judge Bragaw gave the judgment in the trial below and the Seaboard Air Line appealed. Gulledge & Boggan are counsel for Jeans and ex-Judge Neal and Walter E. Brock for the railroad

The local public school authorities all over the State are being appealed to by the State educational authorities and others to authorize the closing of the schools on Friday of Thanksgiving week, and Wednesday, too, if it is necessary, in order that the teachers may come to Raleigh for the annual session of the North Caroline Teachers' Assembly to be in progress November 26th to 29th. The indications are, too, that this course will very generally be taken and that 1,500 or 2,000 teachers will assemble here representing every section and nearly every locality in the State. There will be special railroad rates and the people of Raleigh are planning to make the stay of the teachers especially pleasant. The printed programme for the Assembly will be issued in printed form in a few days. As has already been announced, the especially notable speakers are to include President J. D. Eggleston, of the Virginia Polytechnical Institute, and President E. C. Branson, of the Georgia State Normal, these gentlemen to treat especially rural school problems and the development of country life conditions through the medium of the public schools. They have made special study of these matters. This rural life problem is to be a special feature of the Assembly this year and the assembling of as many of the rural teachers along with the usual large attendance of the city school teachers is one of the special efforts of the Assembly management.

Especially attractive for the city school teachers will be the coming of Dr. William Heard Kilpatrick, professor of the history of education in the Teachers' College, Columbia University. He will treat especially the Montesorri system of elementary teaching. Also there will be special lectures by Miss Ella V. Dobbs, of the University of Missouri, specialist on hand work and manual training. Governor Craig is to deliver an address.

Dr. J. Y. Joyner has called upon Rev. W. E. Abernathy, a Greensboro pastor, to retract the statement he is quoted to have made from his pulpit that Dr. Joyner has issued an order to the public school teachers not to read the Bible in the schools. Rev. Abernathy characterized this alleged action by Dr. Joyner as "an unspeakable shame." Dr. Joyner says no such order has been issued. On the other hand calls attention to special bulletins, one prescribing forms for opening exercises of the schools that includes reading the Bible, and a ruling by him on public school law that "The reading of the Bible in the public schools is legal, right and proper."

COLORED FAIR IN EAST.

Opens at Newbern With Success in Every Particular.

(Special Star Correspondence.)

Newbern, N. C., Nov. 4.—For the first time in the history of Craven county a colored fair is in progress. The gates of the Eastern Carolina Colored Fair were today thrown open and every colored man in this section with his wife and daughters were in attendance. The feature of the day was a big parade and following this, George H. White, a colored citizen of Philadelphia, Pa., made the opening address. The fair is a good one in every particular and the officers are seeing to it that there is no disorderly conduct of any kind to mar the festivities. The exhibits are very creditable and the numerous attractions and other things are away above the average. During the week the officers expect to have 10,000 colored visitors in attendance at the fair and as there are a number of excursions it is probable that this number will be in attendance.

YOUNG FARMER DEAD.

Been Drinking Heavily, Found Dying in Edgecombe Home.

(Special Star Telegram.)

Tarboro, N. C., Nov. 4.—W. Bennie Pitt, a wealthy farmer of this county, was found in a dying condition at his home here today by a colored man and expired shortly after medical aid reached the house. His wife went to Pinetops Saturday to visit her parents and returning this morning did not receive any response at her home, so thinking her husband had gone to one of his farms, returned to Pinetops. Later Mr. Pitt was discovered. He had been drinking heavily since Saturday night. Deceased was aged 24 years and is survived by his wife and two small children.

CITY OF THE LOWER CAPE FEAR

Barn Destroyed by Fire—Soldiers on Hike — Yachts Arriving—Fish Season On—Sale of Schooner—Other Notes.

(Special Star Correspondence.)

Southport, N. C., Nov. 4.—Yesterday morning about 3 o'clock the barn of Mr. G. F. Drew, on his farm some three miles from here, was destroyed by fire. In the barn was a mule of Mr. Drew, and two cows belonging to a tenant. These, together with corn and fodder which had just been gathered, were all lost. The loss was $600 of $700 with no insurance.

This week the soldiers at Fort Caswell go on a two weeks' "hike" down the beach, which means out in the open practice and drill, the same as if engaged against an enemy.

The shooting season opened last Saturday and hunters were out after birds, a few reporting some success.

That the Winter season is approaching is seen in the first arrivals of the long line of yachts from the North on their way to Southern waters for the Winter. Each year the number increases and with this place prepared, as it now is, to supply any amount of gasoline needed for fuel, there is no day without one or more boats at anchor, or at the dock getting a supply of liquid fuel.

Only those in the business can know the importance of the porgie, or menhaden, in its value for fish bait. It is the kind of bait specially wanted for blue fish, because of its oily character which attracts the fish to near the surface, therefore, more can be caught in the same time than with other bait and deep line fishing. Just now all along the coast, there is a tremendous demand for the menhaden bait, and with the fish factories on the Cape Fear, there is ever a constant call for "fish scrap." This morning on an order from Fernandina, Fla., a carload of this fish was shipped, being taken from the fish boat Marran here, iced and forwarded by the early passenger train. There were five hundred barrels in the consignment and $2 per barrel was paid for it.

An order from the State of Louisiana was received by Wm. St. George & Son for fish, which shows that Southport is pretty well known already as fish port. This was for edible fish. There are indications that this place will, at no distant day, be established as an edible fish market, from which there will be shipped the various kinds of fish that are so abundant in the waters adjacent, and this throughout the year, for there will be cold storage whereby all catches of fish can be taken and handled, and thus be independent of the weather.

Local catches of black fish are finding a ready market for outside shipment. Some large sea trout are being shown by private parties, who caught them for home use.

Miss Kate Stuart, who has been enjoying a needed change of scene and rest at New York and Washington, D. C., has returned after a several weeks' absence. She declared the sight of her home here, on arriving by the steamer Ella, was the most welcome object she had seen on all her trip. As a Southport lover, Miss Kate stands in the front rank, and has ever stood ready and willing to forward its civic betterment.

The lumber from the schooner Greenleaf Johnson, which lies ashore at Shallotte Inlet, is being sold.

The schooner John Twohy was sold at auction here today and was bought by Capt. L. D. Potter for $4,800. The sale includes both the vessel and cargo.

HUGO MERCHANT DEAD.

James S. Smith Dead—Mosquito Campaign—Tobacco Sales.

(Special Star Correspondence.)

Kinston, N. C., Nov. 4.—James S. Smith, one of the foremost merchants of this part of North Carolina, died last night at his home at Hugo, near here. He was about 40 years of age, and is survived by his wife and three small children. Together with a brother, he built up a general mercantile business at an isolated country point, several miles removed from a railroad, and was probably the most successful rural business man in a radius of a hundred miles of Kinston. He had valuable farming interests, also. Recently Mr. Smith had a foot injured in a cotton gin, and blood poisoning resulting from the wound caused his demise. The funeral, held this afternoon, was very largely attended.

As the result of a two-thirds campaign to eliminate the mosquito from the town's backlots and streets, Morehead City school children have collected tin cans and bottles enough that if they were placed end to end would reach a distance of five miles. Fifty thousands cans and bottles were piled up by the children to be counted. A girl, Miss Alice Willis, led the children in the number collected, with 4,627 to her credit. Harold Willis, second, turned in 2,769. Local enthusiasm resulting from a recent visit of Dr. C. W. Stiles, the government health expert who has been investigating malaria and typhoid in Eastern Carolina, was responsible for the inauguration of the contest by the Morehead City Woman's Club, who were assisted by the superintendent and teachers of the schools. White children secured about 35,000 of the old cans and bottles, while the colored pupils showed their interest by gathering up about 15,000. This is the biggest step, it is believed, yet taken by a town in this section for the eradication of the germ-bearing mosquito.

Four-fifths of a million pounds of tobacco were sold on the warehouse floors here last week, according to figures by the Kinston Tobacco Board of Trade. Around $200,000, or an average of 25 cents a pound, was paid out by the tobacconists for the golden weed, showing a slight improvement if any change at all, in prices. The total sales here since the opening of the market on August 19th have aggregated about ten million pounds, with more than two and a half million dollars expended.

FILE COMPLAINT.

Ask Inter-State Commerce Commission to Look Into Rates.

Washington, Nov. 4.—Complaint was filed with the Inter-State Commerce Commission today by the Virginia-Carolina Chemical Company and the Charleston, S. C., Mining and Manufacturing Company against the freight rate on phosphate rock used in making fertilizer, from the Mount Pleasant district and Gordonsburg, Tenn., to Shreveport, La. The Louisville & Nashville, St. Louis, Iron Mountain & Southern, the Texas & Pacific and several other roads are named in the petition for relief.

Duluth, Minn., Nov. 4.—Frank A. Clarkson, a merchant, and prominent civic worker, died here today after nearly 11 years of illness. He was 70 years old.

RAILROADS FILE PROTESTS

Nine Companies Doing Intra-State Business Say Justice Rates are Unjust and Confiscatory—To Name Commission.

(Special Star Telegram.)

Raleigh, N. C., Nov. 4.—Formal protests were filed with Governor Craig this afternoon by nine of the railroad companies doing intra-State freight business in North Carolina against the application of the Justice intra-State rate act of the recent extra session of the Legislature.

The protests ask that the special rate commission provided for in the act be appointed to investigate and adjust the rates on a basis fair to the railroad companies.

The Southern Railway, the Atlantic Coast Line and the Seaboard Air Line more especially, file exhibits along with their protests that show differences between the rates in this State and a number of other States and the effect that the application of the proposed rates in the Justice act will have on the earnings of the railroad companies, all, the railroad companies assert, tending to show that the rates in the Justice intra-State rates are too low to a degree that they are confiscatory and would bring disaster to the railroad business in North Carolina.

The Atlantic Coast Line submits an exhibit to show that the present rates in North Carolina are considerably lower than the rates in effect in a number of the other States in this section of the United States and that the application of the Justice act rates would put them so far below rates in other States as to indicate on their face that they are confiscatory and disastrous to the railroads. The Atlantic Coast Line also submits a table to show that the Justice bill would reduce present North Carolina rates 34 per cent. on hauls 5 to 6 miles, 33 per cent. on hauls 100 miles and 29 per cent. on the whole scale of freight traffic in this State.

Taking up the matter of the principal commodity handled in North Carolina as cotton and as grain in Minnesota, the Atlantic Coast Line shows by another table that the railroads in Minnesota would earn 100 per cent. more in handling like quantities under like conditions for similar distances than the North Carolina railroads could earn in North Carolina in handling cotton, the comparison being with grain in Minnesota.

The Southern Railway gives a special exhibit that compares Minnesota rates with the proposed Justice act North Carolina rates that shows the rates to be 18 to 50 per cent. higher on lumber, lathes and shingles in Minnesota than they would be in this State under the Justice act, the present lumber rates in North Carolina being lower than the Minnesota rates after which the Justice act is admitted to be modeled. Another exhibit sets out a large variety of commodities with comparisons of rates in North Carolina compared with these in Minnesota and designed to show that the application of the Justice act rates would give North Carolina cuts in large percentages under the Minnesota rates. There are also comparisons of Virginia, South Carolina, Alabama and North Carolina rates designed to show a confiscatory condition in this State if the Justice act rates are applied.

The Seaboard Air Line protest also carries exhibits that compare the rates in North Carolina, Virginia, South Carolina, Georgia, Florida and Alabama all being to the same end, the indication of unjust and confiscatory rates in this State if the Justice act is allowed to become operative.

Befort leaving for Asheville, Governor Craig stated that he had received these protests and that others are to follow from those roads that have not yet filed and that as soon as practicable he will devote special attention to the merits of the protests and appoint the commission to take up as speedily as possible the investigation and adjustment.

The roads that filed protests today are the Southern, Atlantic Coast Line, Seaboard Air Line, Norfolk Southern, Rockingham Railroad Co., Norfolk & Western, Carolina & Northwestern, Washington & Vandemere, Winston-Salem Southbound.

GATE CITY AFFAIRS.

Y. M. C. A. Religious Work—Farm Employment—Traveling Man.

(Special Star Correspondence.)

Greensboro, N. C., Nov. 4.—Dr. Clarence A. Barbour, associate secretary of the religious work department of the Y. M. C. A., is in the city, holding conferences with workers on subjects of interest. Today at noon he met the ministers at a luncheon and tonight at supper he addressed a large and representative gathering of churchmen and Sunday School workers. He will make addresses at the colleges and in other places during the next two days.

E. H. Anderson, agricultural agent for Guilford county, a position recently established by the county and Chamber of Commerce, has decided to conduct an employment bureau for the benefit of Guilford county farmers. It will be the purpose of this bureau to keep in touch with farmers who want laborers and with men who want work and to bring the two classes together. It is believed that a vast deal of good work can be done in this way and it will be mutually advantageous to employer and employe.

Dr. R. L. Morris, a book salesman of Norfolk, Va., was found dead in his room in the McAdoo Hotel yesterday afternoon. Whether he committed suicide or took too much of a drug accidentally is a matter of conjecture, but circumstances point to the former theory. He is said to have a wife in Sanford, Fla. When found he was lying on the uoor with his head under the dresser. He had been here about a week. The burial will probably be in Norfolk, though the body is still at an undertaking establishment here.

NEWBERN DEFEATED.

State High School Football Championship is Narrowing Down.

(Special Star Telegram.)

Goldsboro, N. C., Nov. 4.—The Newbern High School football team was defeated by the local High School team this afternoon by a score of 53 to 0. The team work of the locals far surpassed that of the visitors, the line work being excellent. The work of Gurley, halfback, being that of a star. The championship of the State now lies between Raleigh, Goldsboro and Wilmington, as neither of the above teams have been defeated.

Arouses the Liver and Purifies the Blood

The Old Standard general strengthening tonic. GROVE'S TASTELESS chill TONIC, arouses the liver to action, drives Malaria out of the blood and builds up the system. For adults and children. 50c.

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY, INC., Wilmington, N. C.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months; $1.50 for three months; 50 cents for one month, served by carriers in the city, or by mail.

THE SUNDAY STAR, by mail, one year, $1; six months, 50 cents; three months 25 cents.

ADVERTISING RATES may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate and like matter will be charged at the rate of 10 cents per line, to persons carrying a regular account, or, if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, excursions, society meetings, political meetings, etc., will be charged under the same conditions, except so much thereof as may be of news value to readers of the paper, in the discretion of the editors.

TELEPHONES: Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and, if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

ALL DRAFTS, checks, express money orders, and postal money orders, for the paper should be made payable, and all communications should be addressed to,

THE WILMINGTON STAR CO.

Wednesday, November 5, 1913.

Porto Rico wants a legislature and if it gets it, the legislature will want Porto Rico.

Some men can keep history straight but are not able to keep themselves straight.

How many people know that a plant belonging to the tobacco family grows wild in eastern North Carolina?

One of the things not to worry about is that Sulzer gave Murphy a second opportunity to get his goat.

When you can't think of anything else reflect on the great advantage that factory pay-rolls would be to Wilmington.

The Charlotte News should explain what has become of the old fashioned country sausage that had such a delicious nutty flavor to it.

Today and tomorrow are Good Roads Days. Good morning! Are you going to work awhile and then say "good night" before noon?

A man who doubts whether women can ever understand politics would slip home and ask his wife for advice about his political chances.

Woman is the ideal home maker. A man doesn't even know how to keep a shack in order. A man can build a house but woman converts it into a home.

Biff! Biff! Biff! Whew! We are working for good roads all the time. That is equivalent to working the roads today, tomorrow and all the time.

Premier Asquith was again assaulted by suffragettes last Saturday in Edinburgh. They were armed with dog whips. "The female of the species is more deadly than the male."

The Carnegie Hero Commission recently awarded hero prizes and medals but there was none for the Vice Presidential nominee (who was he?) that went down with the Bull Moose.

Needn't tell Diaz that there is no such place as that where Dives showed signs of intense anxiety, to get on the waterwagon. Diaz was in it till he reached that American battleship in safety.

Says the Jacksonville Times-Union: "The Premier of Canada is coming South. His desire to see Jacksonville is natural." After seeing Wilmington first, and greeting some of his kinfolk.

The difference between Boss Murphy and his political antagonists is that while they are all trying to unmask each other Murphy happens to unmask more of them than they do of him.

If President Wilson were to send his ultimatum to Huerta by way of Atlanta, why, Atlanta would break the circuit to let the world know the moment that historic message flashed through the Gate City.

Palm Beach, Fla., has a Farms Company that is bringing home-seekers to the Palm Beach section. It is not inviting settlers. It is going after them and getting them, like The Star has been urging North Carolina communities to do.

The time for a politician of any stripe to retire is when any portion of the people haven't got enough respect for him to refrain from throwing potatoes, onions and cabbage heads at him while he is trying to make a speech.

Says the New Orleans States:: "Governor Blease of South Carolina, says the man who will not tell any other man what he thinks of him is not honest." However, the man who insists upon displaying his honesty in any such reckless manner will sooner or later have to acknowledge that he made an honest mistake.

The politicians of New York have indulged in a shocking campaign of vituperation and bitterly assailed each other with charges of lying and corruption. Now that the campaign is over, we move that they tell it all over before a grand jury and furnish the jury with the names of witnesses who can corroborate all the statements and prove all the charges.

SOUTHERN IMMIGRATION ASSOCIATIONS.

In a recent interview in Raleigh, Senator J. A. Brown, of Chadbourn, told the Raleigh News and Observer that the chief problem of eastern North Carolina is the lack of labor. That is true, but something also seems to be wrong with the labor system, since it seems to be difficult to retain labor on the farms to gather the crops after they are made. The same labor that makes the crops ought to be able to gather them, or else it would appear that in this productive region a man can produce more than he can gather. We rather think, however, that after labor produces the crops it does not stay on the farms till they are gathered and housed. Laborers drift into other employment, and that accounts for the general complaint that cotton pickers are scarce.

Eastern North Carolina needs both labor and capital to develop its wonderful agricultural resources. Present developments require more labor, but if there is to be greater development we must not only have additional labor for that but capital as well. That is altogether a situation that makes this section of North Carolina particularly desirable for people seeking employment and for homeseekers who come to work and bring other workers with them. The best opportunities are not in the crowded areas, but in those that are crying for people, so to speak.

The balance of the South seems to be in about the same condition as this portion of it, and again there is a revival of immigration movements. That is to say, especially, that immigration associations are being organized. Many Southern States are engagng in movements to "attract settlers", whereas they should start something to get them. We have every opportunity in the world to "attract settlers" but we do not present the attractions in a way that will count and we overlook the fact that the attractions should be inducements made known in the countries from which we desire to attract settlers. We can get both settlers and laborers if we will make definite propositions that they can consider and accept. Many would come if they could, but they can't do so without assistance or upon terms that amount to inducements. The attractions are all right but the inducements are lacking.

For that reason very little can be expected from the organization of the Mississippi Valley Immigration Association organized at New Orleans a few days ago with Mr. George H. Smith as president. It is pledged to promote desirable white immigration to the South. All Southern States were urged by this new association to make bigger appropriations and send State agents to Europe "to exploit the State's opportunities and induce immigrants to come over," so says one of the resolutions adopted. However, boosting the possibilities, advantages and attractions of the South are not inducements, and that is precisely where such indefinite movements fail.

Southern communities must go after immigrants in Europe and homeseekers in America with definite propositions that will enable as well as induce them to pull up pegs and come South. Land and development companies, farms companies and colonizing companies will do more to get settlers than the States can, because such companies have definite propositions and inducements to make, whereas State agents would do an indifferent and indefinite lot of work, with the net results of the most problematical nature.

What the South needs most is plenty of undertakings like Senator Brown's "Sunny South Colony" at Chadbourn, like the Carolina Trucking & Development Company of Mr. Hugh MacRae and associates at Wilmington, and like the Palm Beach Farms Company at Palm Beach, Fla. It requires capital, of course, but there isn't anything so attractive to capital when such undertakings are properly managed and carried out with intelligence.

THE FEDERAL POINT ROAD.

We are indebted to that excellent Wilmington monthly publication, The Carolinian, for calling our attention to the fact that the Board of County Commissioners has not yet seen fit to accept the proposition of the beach development companies, made several months ago, to contribute $1,000 per mile to the building of the extension of the Federal Point road, provided the improvement is undertaken and completed in time for next season.

Unless there is something inherently wrong wth the proposition of the development companies that does not appear on the surface, we believe the county authorities are making a very serious mistake in delaying action. As the Carolinian, in urging an acceptance of the proposition, very pertinently remarks, it does not require an X-ray to find the cause of the self-interest of the development companies, but it sets out that the road has been surveyed, cleared and even stumped by the county, evidently for the purpose of completing it to or beyond the beach, and it cannot see why the proffer of these companies is not accepted.

As we understand it, these corporations have made an offer to the Commissioners to contribute $1,000 per mile of highway, payable as each mile is completed, conditioned only upon the work's being finished within a specified time. The $1,000 will not build a mile of road, of course, but the county has voted bonds for road building, and, as our contemporary points out, its citizens have a right to expect roads without the financial aid of interested parties.

The argument, says The Carolinian, that unexpected conditions in other sections might necessitate the withdrawal of the convicts from the work on the Federal Point road will not be a valid reason in the eyes of taxpayers to assuage their disappointment at the loss of practically $1,000 per mile in the building of this road, which must come sooner or later, in any event.

The Carolnian could hardly have expressed our own sentiments better, with all the lights at present before us, than in its concluding remarks of a splendid editorial in which it says: "The acceptance of the offer made by these corporations is a duty the Commissioners owe the taxpayers of New Hanover county. While the opportunity is still theirs, let us hope the board will reconsider the matter, accept the terms and press the work until another Summer finds the road from the city to the beaches thronged with vehicles of every description."

The proposed road to the beach developments will be about nine miles in length and it is estimated that the cost of construction will be $3,000 a mile, or $27,000 for the completed project. Thus, the development companies will contribute to the county road fund $9,000, or one-third the cost of building what will be one of the most attractve, important and valuable highway enterprises in the coastal region of North Carolina. Its construction means more than the ordinary development that results from building a modern highway. It means all that, and it means, besides, the development of seaside resorts that will attract thousands of Summer visitors to Wilmington.

HEALTH ADMINISTRATION.

Just now when the budget of expenses for the county health department is being made up for the seven months of the present fiscal year, it is interesting to note the results of a survey of the city of Hoboken, N. J., just completed by the Bureau of Municipal Research, with particular reference to the great need of the maintenance of a "real" health department in that municipality. These figures of .06 cents per capita are shown as ridiculous in comparison with some other cities and indicate that while Wilmington is spendng a goodly sum for its department, it is not greatly in excess of those of some of the leading cities of the country—in fact, that our estimates are about in line with the larger cities of the country.

For the remaining seven months of the fiscal year, the Board of Health proposes an appropriation of $12,471.94 which works out $21,380.40 per year, or approximately 61 cents per capita, estimating the population of the county at 35,000, which is some three thousand in excess of the census of 1910, but still not far out of the way for comparative purposes.

In this connection, it is interesting to note from the Bureau of Municipal Research that New York spends 65 cents per capita for its health department, while Newark, N. J., spends 51 cents per capita; Jersey City 46 cents, Boston 46 cents, Buffalo 43 cents, Baltimore 36 cents, and Philadelphia 33 cents. Wilmington and the county are doing very well, under the circumstances, in keeping the appropriation well in hailing distance of the larger cities and if efficiency is dependent upon the sum expended, then the appropriation in Wilmington is not very far out of proportion and should not be curtailed. But as the appropriations are being made, the fact may as well be brought out that we are right in line with some of the most progressive cities in the Union and that we have every right to expect all that we have—efficient and up-to-date health methods.

VOLUNTEER ROAD WORKING TODAY AND TOMORROW.

Governor Craig's proclamation makes today and tomorrow "good roads days" in North Carolina and he calls upon all able-bodied men in the State to turn out and hit a voluntary lick for good roads. He wants all classes of men to do some work on the roads somehow or some way, and it is hoped that from the sea to the mountains this will be the means of arousing North Carolina's highway spirit as it has never before been stirred.

Besides the awakening of a State-wide sentiment for good roads, we ought to get many more miles added to the highway mileage in the State. The United States Office of Public Roads tells us that $1,000,000 a day is being spent in the United States for the mprovement and extension of highways, and it reminds us to say that today and tomorrow in North Carolina we can do work that will be worth $1,500,000 to the highways in our State. Let us do it. Good roads constitute the evidence of a country's civilization.

A contemporary up the State ridicules the idea that a town-bred girl should be sent to the country to teach agriculture. Tut! Tut! Why, beardless boys are showing us how to grow corn. People who can learn something from boys, certainly can get a few wrinkles from a well equipped "town gal" or an intelligent country lassie. Our idea of being a hundred years behind the times is illustrated by the fact that we are from Missouri till a boys' corn club or a girls' tomato club comes along and "shows" us. Let us all acknowledge the corn.

It often happens that a rabid speaker "hits out from the shoulder," because he prefers to take a hand in something rough. The man who has no respect for the opinions, sentiments and convictions of others, but employs brutal words to gain notoriety for himself, is generally called "a rough diamond" if he happens to get the best of it.

Vanderbilt suddenly left New York for Europe because everybody in Gotham seemed to be calling somebody else a liar. If anybody should refer to him as a prevaricator he can prove an alibi by showing that he was in Europe at the time.

CURRENT COMMENT.

The unkndest cut of all is the proposal of Virginia shippers to get an injunction against the freight rate revolution engineered in Nor Ca'line.—Columbia State.

Cigarette and cigar prices will be increased in New York November 10th as the result of an agreement between the retail tobacco dealers. More money to go up n smoke.—Columbia Record.

"A large city that is as orderly every day as it is on Sunday is a nice place to raise the boys and girls and send them to school."—Wilmington Star. That depends very largely on how orderly it is on Sunday.—Jacksonville Times-Union.

Women took a prominent part in the disorder growing out of the street car strike in Indianapolis. Girls were promnent in the efforts to drown in noise William Sulzer's speech in the Second Assembly district in New York City. Women ambushed Premier Asquith of Great Britain, and whipped him. All of this happened in one day. Which goes to show that the old-fashioned, retiring, hot house flower sort of woman is getting to be a rarity.—Savanah News.

ACCIDENTS IN WILSON.

One Accidental Death and Two Automobile Collisions—Notes.

(Special Star Correspondence.)

Wilson, N. C., Nov. 4.—Sunday seems to have been a day of accidents in and around Wilson. One accidental death and two collisions with automobiles is the record of the day.

Sunday morning Paul Ellis, son of Mr. Andrew Ellis, and a young farmer of Stantonsburg township, shot himself accidentally and death resulted instantly. In company with several companions Mr. Ellis went rabbit hunting and in pulling his gun through a fence the gun was discharged, the load striking him in the head. The young man was 21 years old and a young man of good character.

Sunday evening Mr. R. A. Garner, of Fountain, passed through Wilson, driving his automobile, and as he turned into Whitehead place, he collided with a bicycle ridden by Lee Moore. The young man was unconscious when picked up. He was taken to a local hospital where after examination it was stated that his injuries are internal and it is impossible to know for several days his condition. With Lee Moore was another boy, J. O. Dunn, riding on the handle bars of the bicycle. Dunn was only slightly injured. Bystanders state that the automobile wheels ran over the body of Moore after striking the bicycle.

The same evening Mr. J. J. Dillard, of Spring Hope, driving his car from Selma to Wilson, struck a horse driven by a negro man. The horse was instantly killed. This collision took place near Five Points, south of town. Mr. Dillard expected the negro to turn to the right, but the negro did not turn until too late and the car struck the horse head on.

The Board of County Commissioners met yesterday afternoon and elected Mr. A. B. Deans to serve as judge of the Wilson County Court, Attorney F. D. Swindell was selected as solicitor. Judge Deans is a leading farmer and ex-clerk of the Superior Court. The commissioners elected Attorney W. A. Lucas judge-substitute.

Wilsonians are congratulating Mr. R. E. Crawford on his appointment as State agent of the Connecticut Mutual Life Insurance Co. Mr. Crawford was formerly manager of the Hotel Briggs, but went with the insurance company several months ago. His promotion comes as the result of his good business. His office will be in Raleigh but he states that he will continue to reside in Wilson.

Misses Virginia Davis and Gladys Smith are at home from St. Mary's School, Raleigh. The young ladies will remain here until the danger from the smallpox scare at the school is over.

J. G. Mercer, of Black Creek, tells of finding deer tracks on his farm recently and thinks the deer were driven out of the swamp during the recent high water. Hunters are after them.

In the mayor's court yesterday an array of Sunday drunks" appeared and the city treasury is consequently considerably enriched.

READY FOR SATURDAY'S GAME.

A. & M. Team Getting in Trim—V. M. I. Outlook.

(Special Star Correspondence.)

West Raleigh, N. C., Nov. 4.—The A. & M. football team started the week with hard practice this afternoon in preparation for a stiff contest in Richmond Saturday. Last Saturday's game proved a good practice game for the Techs, except that Cooke, right tackle, and one of the best men on the team, had his collar bone broken, and will probably be out of the game the rest of the season. However, Mc Henry will probably be shifted from guard to tackle, and Beauregard or Winston, used at right guard, which will make the line nearly as strong as before. Tenney, fullback, and Sullivan, left half, two of the most consistent ground gainers on the Red and White backfield, have been out of the game for the past week on account of injuries, but they will be out for practice this week, and will very probably be able to get in the V. M. I. game Saturday. Although the Techs are confident of vetory in Richmond, they will take every precaution, and the coaches will have the squad in the best of condition to meet the Cadets, as they have not forgotten the surprise and defeat they received from V. M. I. in Lxington two years ago, and the trip to Richmond this week will be made with the determination to even up old scores, and defeat the Lexington team. The Tech line is very evenly balanced this year, and is both strong and fast. No team has been able to score a touchdown through it this year, the only two which were made being on flukes, the strong Georgetown team being powerless in attempting to go through it. The backfield is composed of about as good a combination of speed, weight and headwork as could be wanted by any college, and it will take a strong and fast line to withstand their attacks. Also there are several good substitute backfieldmen who can be depended on for ground gainers. The Techs are eagerly looking forward to the contest with V. M. I. in Richmond Saturday afternoon.

"If there are nice things you want to buy, and they are necessary, buy them, but do not squander your money—save it."—John D. Rockefeller.

Roosevelt Spends Twelve Hours in Montevideo.

Montevideo, Nov. 4.—After spending twelve hours in Mentevideo Colonel Roosevelt left tonight for Buenos Ayres on board the scout ship Uruguay. During his stay here Colonel Roosevelt was the guest of the President of the Republic, Jose E. Battley, Ordnez, who gave a banquet in his honor at the palace.

Paris, Nov. 4.—The Marseilles-Paris Express was in collision tonight with another train and seven coaches filled with passengers were practically reduced to splinters. The wreckage caught fire. The number of dead is estimated at between 40 and 50.

Can't Help But Admire Babies

Every Woman Casts Loving Glance at the Nestling Cuddled in its Bonnet.

A woman's heart naturally responds to the charm and sweetness of a pretty child, and more so to-day than ever before since the advent of Mother's Friend.

This is a most wonderful external help to the muscles and tendons. It penetrates the tissues, makes them pliant to readily yield to nature's demand for expansion, so there is no longer a period of pain, discomfort, straining, nausea or other symptoms so often distressing during the anxious weeks of expectancy.

Mother's Friend prepares the system for the coming event, and its use brings comfort, rest and repose during the term. This has a most marked influence upon the baby, since it thus inherits a splendid growing system of nerves and digestive function.

And particularly to young mothers is this famous remedy of inestimable value. It enables her to preserve her health and strength, and she remains a pretty mother by having avoided all the suffering and danger that would otherwise accompany such an occasion. Mother's Friend thoroughly lubricates every nerve, tendon and muscle involved and is a sure preventive for caking of the breasts.

You will find this splendid remedy on sale at all drug stores at $1.00 a bottle, and is highly recommended for the purpose.

Write Bradfield Regulator Co., 134 Lamar Bldg., Atlanta, Ga., and they will mail you sealed, a very instructive book for expectant mothers.

CAPITAL NOW ONE MILLION

Stockholders of the Murchison National Bank Ratify Action of Directors—Increase of $175,000.

Already the largest and most influential National bank in the Carolinas, the action of the stockholders of the Murchison National Bank, in special session for the purpose yesterday at noon, in increasing the capital stock from $825,000 to an even million dollars, places this well known and prosperous institution still further in the lead and affords it the opportunity of being of greater benefit in the development of Wilmington and surrounding section.

The directors decided four or five weeks ago that the capital stock ought to be increased to a million dollars and a resolution was adopted recommending to the stockholders that this be done. A meeting of the stockholders was called for yesterday at noon to act upon the recommendation. The meeting yesterday was merely a matter of form, as it was understood that the recommendation of the directors would be carried out. Mr. Phil. Pearsall was called to the chair and presided and Mr. J. V. Grainger acted as secretary. The additional stock of $175,000 has been issued and is now ready for delivery.

The decision to increase the capital stock came almost simultaneously with the announcement of the decision of the directors to erect for the institution a ten-story banking home and office building on property purchased for a new home of the bank directly across Front street from the present splendid home of the institution. Work on the new building begins within the next few weeks and it is planned to have it ready for occupancy by the first of October of next year.

CHARTER GRANTED.

New Steamboat Line for Wilmington Incorporated Monday.

A charter for the Southern Steamboat Company, of Wilmington, was granted Monday by the Secretary of State. The Raleigh News and Observer yesterday had the following with reference to the granting of the charter:

"A steamboat line to operate vessels between Wilmington and Baltimore and a cotton mill to be located at or near Greenville, are among the new enterprises chartered by the Secretary of State J. Bryan Grimes yesterday.

"The Southern Steamboat Company, of Wilmington, filed articles of incorporation signed by Messrs. M. L. Gilbert, L. E. Hall and W. E. Perdew, of that city, as corporators. Capital stock authorized is $125,000, but the corporation is given the privilege of beginning business when $50,000 has actually been subscribed and paid in. The stock is divided in 12,500 shares of $10 each. Among the purposes set forth in the articles of incorporation are to operate steamships, sailing vessels, tow boats, lighters, scows, barges and other vessels between Wilmington and Baltimore and between these and other North and South Atlantic ports. This announcement will prove of great interest in connection with the present fight for just freight rates for Wilmington and the State of North Carolina. Mr. Hall has been quite active in the rate fight."

THE APOLLO CONCERT CO.

Second Number of Brotherhood Lyceum Course Tomorrow Night.

The Brotherhood of St. Andrew's Presbyterian church announces that the second number of the lyceum course under its auspices will be given tomorrow night in the memorial annex of the church. This will be a concert by the Apollo Concert Company. This is the company's second appearance in Wilmington and proves the popularity of the company which is one of the best of its kind on the road. Individually they rank among the best soloists of the country and the programme given by them is interesting from start to finish.

They play on many musical instruments but are in no sense a novelty company. It is their purpose to give good music in a popular form, played by musicians of the highest class and on instruments that are favorites. They play the Apollophone which is a wonderful instrument perfected by them and used for the first time last season when it made quite a hit.

Much of the music used in their programme was written by Mr. Holmes, a member of the company. He has written music now being used by some of the leading bands of the country, including Sousa's. The company has been under the present bureau management for the past seven years, and their popularity has increased with each succeeding year. They will no doubt be heard by a full house tomorrow night.

FREIGHT RATE HEARING.

Corporation Commission Will Visit Wilmington November 14th.

The State Corporation Commission, composed of Hon. E. L. Travis, Hon. W. T. Lee and Hon. George P. Pell will hold a hearing on the cross-tie freight rate controversy in Wilmington at 10 A. M. on November 14th, according to a letter received yesterday from Mr. A. J. Maxwell, clerk of the Commission, by J. Felton Head, Esq., attorney for the cross-tie interests of the city.

Buyers and shippers of cross-ties have been agitating the matter for cheaper rates on cross-ties from Wilmington to other North Carolina points for several months past. Mr. Head has been working on the matter as their attorney. The local men tried to get a committee hearing before the extra session of the Legislature but as the freight question was being considered in a general way they did not succeed. The Chamber of Commerce joined them in the request and was assured the hearing would be held later.

When the freight rate adjustment was made by the Legislature without giving the cross-tie interests the desired relief they have continued their efforts to secure equitable rates on this class of shipments. The Corporation Commission has assured them that they will go into the matter thoroughly, and, if possible, give them the desired relief.

Attending Installation Exercises.

Rev. G. T. Adams, pastor of Fifth Street Methodist church, went to Greensboro Monday to attend the exercises incident to the installation of Rev. Dr. S. B. Turrentine as president of the Greensboro College for Women. Mr. Adams is a member of the board of trustees of this institution. An elaborate programme has been prepared for the occasion, and there will be distinguished speakers from this State and from other colleges in the country.

CHRISTMAS IS APPROACHING

Little Folks Already Dreaming of Santa Claus—Merchants Are Making Preparations for Big Holiday Trade.

With Christmas only six weeks off the little folks have begun to dream of Santa Claus and the merchants are busy making preparations for the big trade that Wilmington always has during the holiday season. Already the show windows are being decked in festive attire and when Santy makes his appearance in December he will find the merchants prepared to supply his every need, for children both old and young.

The school children are beginning to count the days until the time when they can take their holiday vacation. They are looking forward with interest to the period when they can lay aside their books and have pleasure and fun to ther heart's content. Many are busy making little gifts with which to remember their friends.

Letters to old Santa Claus who is said to be domiciled somewhere near the North Pole, are being written by the tots and soon he will be besieged by a multitude of requests for dolls, express wagons and toys of all kinds that are dear to the hearts of children. When he arrives in Wilmington he will receive a cordial welcome from the young people who find it hard to rest easy durng the long time that intervenes between his periodical visits.

The older folk, especially the women, have begun to think of the kind of presents that will be most suitable for friends and relatives, and many fair maidens are spending all their recreation moments in crocheting a handerchief or makng some dainty work of embroidery for a dear friend. The young men are ordering catalogues of jewelry or other merchandise and looking them over with a view to buying some article that will be suitable for those whom they love and cherish.

The older ones who have seen many a Christmas go by, and who now find their chief joy in making others happy are also pondering in ther minds the gift that will be just the thing for the children or for brother or sister, or other relative.

And the merchant who must minister to many needs is figuring out just how many articles of different kinds he ought to have in order to take care of the varied wants of Wilmington people. He began months ago for that matter, and already many of the beautiful gifts that will make father and mother and others happy are safely stowed away behind the counters.

The spirit of Christmas is in the air, and from now until December 25th Santa Claus will be constantly in the minds of thousands of the little people. Get the spirit and join the crowd that believes in making the world a happier and better place in which to live. Christmas is on the way, and even if "daddy" does have to scratch his head sometimes in order to figure out how he is going to pay all the bills that are likely to fall due the first of the year, he, too, will be glad because he can help to make others happy.

WILL WORK ROADS.

New Hanover Citizens Will Join Governor Craig in Road Building.

Many New Hanover citizens will shovel dirt today and tomorrow in observing these days set apart for road building by Governor Craig. While it is not likely that many citizens of Wilmington will join in the movement reports from several sections in the county state that road-working squads will be organized.

Notable among these are the colonists of the Castle Haynes colony of the Carolina Trucking Development Company, who will devote the two days to improving the main roads in the vicinity of Castle Haynes. They have secured the use of a road machine from the Board of County Commissioners, and the Carolina Trucking Development Company has furnished a traction engine to be used in connection with the machine. The citizens in the vicinity of Masonboro church will meet this morning at the church and will during the two days build a road from the church to the rock road.

MOVE INTO NEW BUILDING.

The Worth Co. and Jas. I. Metts in New Home Foot Grace Street.

The new building recently erected at the foot of Grace street, on the site formerly occupied by the C. C. Covington Co., opposite the Clyde Line terminals, has been completed. It will be occupied by the Worth Co., wholesale grocers, and Jas. I. Metts & Son, merchandise brokers, and they have already moved into their new quarters. The Worth Company moved Saturday from its former home at No. 1 Grace street. Messrs. Jas. I. Metts & Son have had temporary quarters on the wharf with offices in the Southern Building since the destructive fire several months ago which destroyed the building occupied by them and the C. C. Covington Co. The new building has 7,000 feet of floor space, and is built of corrugated iron. It will be used as a warehouse and for the offices of the two concerns.

Officer Joe Lane "Borrowed."

Sheriff Cowan announced yesterday that the city officials had kindly consented to lend him Patrolman Joe Lane for 30 days to do duty in patrolling the roads on a motorcycle to run down speed violators and that Officer Lane would begin his new duties this morning. The County Commissioners recently authorized the employment of a man for this purpose for 30 days. At the meeting Monday the Commissioners recommended the appointment of Mr. Louis W. Tyndall, it having been stated that Sheriff Cowan asked that the board recommend some one. Sheriff Cowan said yesterday that he never asked that the Commissioners recommend to him a man for the place and that he preferred to select his own deputies since he has to be responsible for their work.

A LARGE CONTRACT.

What J. Hicks Bunting Drug Co. Wants Every Person in Wilmington to Do.

When the J. Hicks Bunting Drug Co., the enterprising druggists, first offered a 50 cent package of Dr. Howard's specific for the cure of constipation and dyspepsia at half price, and guaranteed to return the money if it did not cure, they thought it probable from their experience with other medicines for these diseases, that they would have a good many packages returned. But although they have sold hundreds of bottles, not one has been brought back.

To those suffering with dizziness, headache, poor digestion, constipation and straining, Dr. Howard's specific offers quick relief. It is an invaluable boon to all who feel uncomfortable after eating, and is today the popular dinner pill in all the large cities.

WORK OF TRAVELERS' AID

Society Formed to Protect and Help Girls and Women on Trips—Sorosis Has Undertaken the Work Here.

There are perhaps many people who are not aware that there is such an organization as the Travelers' Aid Society. Recently the North Carolina Sorosis of Wilmington made plans for undertaking the work of the organization here, and has made arrangements to have a lady at the union station who will devote her exclusive time to aiding and helping travelers, particularly women and girls, who by reason of inexperience, ignorance, illness, infirmity or other disability are in need of assistance.

The Travelers' Aid Society is a non-sectarian, protective organization. While its primary purpose is to protect travelers it does a great deal more than that. For instance, it furnishes information, advice, guidance and all of this without regard to race, color, class or sex. Another feature of the work of the society is the investigation of the inducements which are offered any woman or girl to come to the city. This is a very important work when it is recalled that many women and girls are enticed to cities every year upon false pretenses.

Women agents of the society in other cities meet trains and steamers to aid and conduct inexperienced and confused travelers any hour of the day or night to their destination within the city or to other trains or steamers for other points until the traveler is known to have reached the proper destinations. The society sometimes provides temporarily for the traveler.

The work of the society is supported entirely by voluntary contributions from philanthropic persons who recognize the advantage of helping people before there is need of rescue. The work in Wilmington has been launched by Sorosis, and it is expected that public spirited citizens will assist in seeing that it s kept up.

The Travelers' Aid at the union station will keep a list of the boarding houses for the purpose of directing strangers to desirable places. All those desiring to be placed on that list may communicate by postal to Mrs. L. B. Herring, N. 516 South Second street.

In reference to the work of the Travelers' Aid the Raleigh News and Observer had the following yesterday editorially:

"The Winston Sentinel praises the Travelers' Aid work of the Y. W. C. A. in Winston-Salem. This is one of the most important functions of the Y. W. C. A., the work that it does in this respect alone justifying largely the [illegible] of maintaining the organization. Travelers' Aid work is social service of a practical kind."

Mrs. L. B. Herring will have charge of the work here, and began her duties yesterday. She will devote her entire time to looking after strangers who visit the city, or who may be passing through en route to other points.

THE RECORDER'S COURT.

Evidence in Cases Against Mr. J. D. Sidbury Heard—No Decision.

Judgment was left open until this morning by the Recorder yesterday in two cases against Mr. J. D. Sidbury. He is charged with disorderly conduct and with assault with deadly weapon. The warrants were sworn out by Policeman Leon George, who alleges that several weeks ago when he went on Sidbury's property to look at some horses that he cursed him and also picked up two brick bats and ordered him off the premises, threatening to hit him if he did not. Mr. Sidbury in his own behalf did not deny having ordered Mr. George off the premises, and stated that after he had done so that he came back again. A number of witnesses were examined.

Recorder Furlong thought that in view of the alleged loud language which Mr. Sidbury said Patrolman George had used that the policeman was as guilty of disorderly conduct as the defendant. Solicitor Peschau was of a different opinion, maintaining that while Mr. George might have used loud language he did not curse. The matter was left open until this morning when the Recorder will give his decision.

Judgment was also left open in a case against Charlie Walker, colored, charged with disorderly conduct and with shooting a pistol in the city limits, and in a case against Herbert Cowan, colored, charged with being drunk and disorderly conduct. In default of bond they were committed to jail.

AS GOOD AS NEW.

Steamer Wilmington Comes Off Ways. Inspection First Class.

The steamer Wilmington, which has been on the marine railway for several days, came off yesterday, and will resume her regular runs on the Cape Fear today. Before coming off the ways, Capt. F. B. Rice, government steamboat hull inspector, made an inspection of the Wilmington's hull, drilling in seven places most liable to deterioration, the iron plates being found exactly the same thickness as they were the day the steamer was built, which means that the Cape Fear's handsome steamboat is just as good as the day she was launched.

This is a peculiar pleasure to the thousands and thousands of people from all over the State who have from time to time been guests of Capt. John W. Harper, the owner, on this handsome and substantial craft.

Moving Day at Union Station.

The departments in the general offices of the Atlantic Coast Line, which will have their quarters in the new union station have been busy for the last several days moving into their new home. There are thousands of documents and papers of all kinds to be moved, and it will take some time to complete the removal. Practically all the executive offices will be moved into the new building. Definite arrangements as to the assignment of the old offices will not be made until the moving of the present offices is finished, but they will be used by the offices which will be left in the old building. On account of the increasing business of the road an expansion of quarters was made necessary in order to have room for the increasing number of papers and also for the enlarged force of many of the departments.

Funeral of Young Daughter.

The funeral of Nettie Pearle Baker, the two-months'-old daughter of Mr. and Mrs. L. D. Baker, was held yesterday afternoon at 2 o'clock from the residence, No. 1002 North Sixth street, conducted by Rev. J. S. Crowley, pastor of Immanuel Presbyterian church. There were many friends present at the services.

MERCHANTS SIGN PETITION

Council Expected to Repeal Amendment to Sidewalk Ordinance This Morning—Other Important Matters.

Carrying out the agreement entered into last Wednesday with the committee from the Housewives' League, the City Council this morning will doubtless vote unanimously to repeal the amendment to the city ordinances that would permit the merchants to use two feet of sidewalk in front of their stores for the display of goods and merchandise, for the ladies have carried out their part of the compact by getting a majority of the merchants who signed the original petition for the privilege, to say that they will not urge their petition.

Eighty-five bona fide names appeared on the petition from merchants, it is said, and the ladies, in accordance with the requirement of the Council, have seen in person nearly all of these and out of the number approached 58 gladly and without a moment's hesitation attached their names to the document asking to be allowed to withdraw the original petition. Only five or six merchants declined to sign the document carried around by the ladies. Those who signed the document withdrawing their names to the petition did so because they wanted to, because, as they explained to the ladies, that the position taken by the housewives was correct; they had signed the original petition without thinking very much about the matter—now that they had considered the possible contamination of foodstuffs exposed on the sidewalks, to say nothing of the esthetic side of the question, they were eager to lend any aid they could in the campaign for purer and more wholesome foodstuffs. Many of the merchants who had signed the petition for the sidewalk privilege commended the ladies for their determined stand.

While a committee of ladies were visiting the merchants who had signed the petition another committee was out with a petition for signatures of those merchants who did not sign the other petition and who are against the granting of the use of the sidewalks for display purposes. So in addition to the "retraxit" of signers of the original petition there will be a strong petition from merchants protesting against the use of the sidewalks.

A strong committee from the Housewives' League will appear before the Council this morning and ask the Councilmen to repeal the amendment to the ordinance in accordance with the agreement.

The amendment was passed two or three weeks ago by a vote of three to two, Councilmen Merritt, Wood and Jones voting for it and Councilmen Chadwick and Loughlin against it. The three first named entered into the agreement with the ladies at the last regular meeting and they will probably be prepared to carry out their part of the bargain when the counter petition is presented this morning.

Another matter that will probably receive consideration by the Council this morning is the new budget of the health department for the remaining seven months of the present fiscal year. A copy of the budget was published in Sunday's Star and the public is familiar with the different items. The County Commissioners Monday afternoon passed the budget exactly as submitted except that they recommended that the salary of the fumigation officer be made $70 instead of $65 a month.

Still another matter that is likely to receive attention this morning is the proposal to establish deep wells as a source of public water supply for the city. A representative of Gray & Company, of Chicago, arrived in the city yesterday and will join Mr. J. D. Lowry, the well known local well man, in a proposition to guarantee a certain quantity of good, pure water a day from deep wells. The Gray Company has had much experience in boring wells in different parts of the country, it is said. In company with Mr. Lowry the Gray representative made a tour of the city yesterday afternoon to inspect possible sites for deep wells.

THE CITY FINANCES.

Statement of Receipts and Disbursements for October.

Statement of the receipts and disbursements in the several departments of the city government for the month of October was issued yesterday by Capt. Thos. D. Meares, city clerk and treasurer. The statement shows balance on hand October 1st, receipts for October, disbursements, balance on hand November 1st, in order, as follows:

General Fund—Balance on hand $101,500.13; receipts for October $27,785.32; disbursements $17,921.51; balance on hand $11,365.94.

Water and Sewerage Department (operating)—Balance on hand $711.58; receipts for October, water $6,679.86; sewerage, $2,283.55; total receipts $10,963.41; disbursements $6,462.29; balance on hand $5,212.70.

Water and Sewerage Department, (construction)—Balance on hand $26,241.32; receipts, loans $100,000; disbursements, $12,642.45; balance on hand $113,598.87.

Park Fund—Balance on hand $895.82; no expenditures during the month.

Sidewalks—Deficit October 1st, $7,968.58; receipts in October $375.51; deficit November 1st, $7,693.07.

Incinerator—Deficit October 1st, $8,689.81; no change November 1st.

Macomber's Ditch—Balance on hand $41.50; disbursed $695; deficit to general account $653.50.

Scavenger—Balance on hand $179.48; receipts $805.05; disbursements $735.92; balance on hand $148.61.

Summary of balances—General fund $111,365.94; water and sewerage (operating), $5,212.70; sewerage bonds (construction), $113,398.87; park fund $895.82; scavenger fund $248.61. On the debit side are the following: Macomber's Ditch $653.50; incinerator $8,689.80; sidewalks $7,593.07.

The amount is deposited as follows: Murchison National Bank $29,589.53; American National Bank $64,670.80; Atlantic Trust & Banking Company $80,000; Mercantile Trust & Deposit Co., $80,033.33; People's Savings Bank $995.82; coupon account, New York, $10,100; coupon account, Philadelphia $7,531.25; coupon account, Wilmington, $215; cash and cash items $1,049.83; total $214,385.56.

The following is the statement of receipts, general fund, for the month of October: Real estate, personal and polls $26,314.40; back taxes $42.35; licenses, Merchants, corporations, etc., $957.57; vehicles $18.25; chauffeurs $13; dogs $10; market rents $352.07; pound fees $10; interest on deposits $33.33; sweepings and slops $39.25; surveys $5; total revenue $27,785.32. Amount collected fiscal year to date $49,787.91; to same date last year $52,210.40. The following are amounts received in other departments: Water (operating account), $8,679.86; fiscal year to date $18,927.51; sewerage (operating account) $2,283.55; fiscal year to date $4,425.45; scavenger $805.05; sidewalks $375.51; total revenue from all sources $39,929.29. Same date last year $80,115.90.

JUSTICE HARRISS COURT.

Several Cases Sent to Higher Courts for Trial Yesterday.

Mr. R. S. Haddock, charged with getting goods under false pretenses, waived examination before Justice Harriss, yesterday, and the case was sent to Recorder's Court for trial. He gave bond for his appearance. The warrant was sworn out by Mr. George H. Bellamy, of the Bellamy Grocery Company and is in connection with merchandise which Mr. Haddock is alleged to have gotten from the company. The amount involved is said to be about $40. Mr. Haddock's side of the case will likely be given in the Recorder's court today.

Probable cause was found in a case against Will Williams, white, charged with embezzlement, and the case was sent to Superior Court for trial. In default of bond he went to jail. The warrant was sworn out before Justice Harriss by I. K. Pinner, and alleges that Williams appropriated $5 to his own use money which he collected for Pinner.

H. L. Rolneck, A. Kutz, H. Stein, M. Abelovitz, M. Goldberg, Louis Horowitz, Sol Shain, I. Miller, Alex. Kosh and M. Freeland plead guilty to peddling without license, and were bound over to Superior Court.

Roger Moore & Sons' Co. yesterday had attachment papers issued in Justice Harriss' court for a lot of tiling in South Wilmington owned by the Ideal Concrete Company. The property is held for alleged debts due the plaintiff. The matter will probably not be heard for several weeks yet.

CONCERT THIS EVENING.

Opening Number of the Boys' Brigade Lyceum Course.

The sale of reserved seat tickets for the Boys' Brigade Lyceum Course will continue throughout today until 6 o'clock, if the tickets are not all gone before that time. The sale yesterday was the largest ever had since this course was started three years ago. There are still many ticket holders who have not yet had their seats reserved and these will probably do so today. The sale is being conducted at the store of Munson & Co.

The entertainment for tonight is undoubtedly one of the best musical events to which the public will have access this season. Madame Riheldaffer is not an ordinary singer, even among concert singers, but is an artist of the truest type, who has had the most enviable success for years and she is now just at the zenith of her career.

As a violinist Miss Gailey is also a star of the highest order, who wins from all hearers alike, whether they be trained musicians or otherwise, the most genuine appreciation, and she will be heard here under the most favorable conditions.

The doors will be opened at 7:30 and the entertainment will begin at 8:30. The new stairway at the rear of the armory will be used on this occasion.

State Building Architect.

In the city yesterday was Mr. P. Thornton Mayre, of Atlanta, Ga., one of the most distinguished architects in the South. Mr. Mayre is the architect for the quarter million dollar administration building just being completed at Raleigh and came down for a brief conference with ex-Mayor Springer, of this city, who is secretary of the State Building Commission. It is expected that the heating plant will have been installed and the building in Raleigh ready for occupancy in two or three weeks.

Deep Wells in County.

Commissioner McGirt has given notice to other members of the board that at an early date he expects to advocate the sinking of a number of deep wells at different points in the county for the benefit of the people living in the rural districts. Other members of the board are very favorable to the plan and it is likely that the question will be brought up and formally acted upon in the near future.

SOCIAL & PERSONAL

The regular monthly meeting of the Ladies' Concordia Society will take place this (Wednesday) afternoon at 4 o'clock in the rooms of Harmony Circle.

* * *

The regular monthly meeting of the Woman's Missionary Society of Grace Methodist church will be held this afternoon at 4 o'clock, in the parlors of the church.

* * *

Miss Olivia Hewlett has returned home after a stay of several weeks in New York City, where she attended the General Convention of the Episcopal Church.

* * *

The Hospital Circle of King's Daughters and Sons will meet at 11 o'clock Thursday morning at the home of Mrs. W. B. Cooper, No. 207 North Fifth street. A full attendance is earnestly requested.

* * *

The Philathea Class of the First Baptist church will hold its regular monthly meeting next Thursday evening at the home of Miss Florence Whitney, No. 224 North Seventh street. All the ladies are urged to attend.

* * *

Mr. and Mrs. J. J. Hutson are visiting Mrs. Hutson's father, Prof. Washington Catlett. Mr. Hutson is in the revenue cutter service, and is off on a furlough. After spending a few days here he and his wife will go to Port Townsend, Wash., where he will be stationed.

* * *

Miss Sarah Peck Hines will open a School of Expression at 807 Ann street next Monday, November 10th. Miss Hines is a graduate of the Boston School of Expression, and has had much experience in this department, in colleges, at Summer schools and as a reader and entertainer.

* * *

The Housewives' League will meet this afternoon at 4 o'clock in one of the committee rooms of the Y. M. C. A. This is an important meeting and a full attendance is desired. All those desiring to become charter members are requested to visit the secretary of the league at the Y. M. C. A. between 3:30 and 4 o'clock.

* * *

The Cape Fear Chapter, U. D. C., held a meeting yesterday morning at 11 o'clock at the W. L. I. armory for the purpose of disposing of all unfinished business. The meeting was presided over by the president, Mrs. R. C. Cantwell, and a record of the proceedings was kept by the secretary, Mrs. M. G. Saunders. There was a good attendance. No matters of general interest were taken up.

* * *

HALLOWE'EN NIGHT IN KENANSVILLE, N. C.

Kenansville, N. C., Nov 2.—On Saturday night last Miss Mildred Beasley entertained quite a number of her friends at a party traditionally devoted to merry making, with playful ceremonies and charms to discover future husbands or wives—better known as Hallowe'en.

After the guests having first turned their minds toward the Hallowe'en mysteries and relating the various eerie sensations experienced, enjoyed some delightful games.

At 10 o'clock the guests were ushered into the dining room where a delightful supper was served.

Among those present were: Misses Lucy Southerland, Theo Wooten, Cornelia and Helen Jones; Messrs. R. Stedman Sloan, Liston Mallard, Albert T. Outlaw, Meredith Farrior, all of Kenansville; Miss Norma Carr, of Wallace, N. C., and Mr. Joe Bland, of Burgaw, N. C.

* * *

BEAUTIFUL WEDDING AT FAIR BLUFF, N. C.

Fair Bluff, N. C., Nov. 3.—A beautiful home wedding was solemnized Wednesday last at 5 o'clock in the afternoon at the lovely home of the bride's mother, Mrs. Alexander Willis Jenkins, when her youngest daughter, Miss Garnietta, became the bride of Mr. Ryland Paul Bryant, of Marion, S. C.

The ceremony was performed in the parlor of the home under a beautiful arch of Southern smilax and chrysanthemums.

To the impressive strains of Lohengrin's Wedding March rendered by Mrs. A. Wilbert Jenkins, of Fair Bluff, the bridal party entered the beautifully decorated room in the following order:

Aisles were formed by two lovely little girls, Misses Nellie Bryant, niece of the bride, and Gladys Mason, beautifully dressed in white chene silk with lace trimmings, holding white satin ribbons.

Then came the bridesmaids and groomsmen. The bridesmaids, Misses Gay Redmond, of Richmond, Va., and Evaline Mayo, of Tarboro, N. C., both gorgeously gowned in yellow crepe meteor with lace and pearl trimmings, carrying large bouquets of yellow chrysanthemums.

The groomsmen were Dr. Walker Bethea, of Florence, S. C., and Mr. Frank Watson, of Marion, S. C. Preceding the bride came the ring bearer, her wee niece, Miss Eloise Bryant, carrying the ring in a tiny silver tray.

The bride entered on the arm of her brother, Mr. M. N. Jenkins, of Mt. Tabor, N. C. She was handsomely attired in a going-away suit of blue cheviot with hat to match and carried a shower bouquet of orchards and lilies of the valley. The groom entered with his brother as best man, Mr. J. N. Bryant, of Wilson, N. C. During the ceremony Schuberts Serenade was played. Rev. Dr. Harper, pastor of the M. E. church of Marion, S. C., performed the marriage vows, the impressive ring ceremony being used.

After a trip to Northern cities, Mr. and Mrs. Bryant will reside in Marion, S. C. The ushers were Mr. Ed McClenney and Dr. M. S. Smith, both of Marion, S. C.

The bride is a pretty and attractive young lady and is well known all over the State and has many friends, while the groom is a bright and promising young man holding a responsible position with the Marion County Lumber Company, of Franklin, Va.

PERSONAL PARAGRAPHS.

—Mr. Nixon Ottoway, of Town Creek, was in the city yesterday.

—Among yesterday's arrivals at The Orton were Messrs. J. J. McKoy, of Bolivia, and Joe Centrella, of Bolton, N. C.

—Mr. W. F. Carpenter, for many years manager of the Carpenter Grocery Company, has accepted a position with the Cape Fear Cash Grocery Co.

EXPRESSION OR ORATORY.

A school of Expresson will be taught in this city by Sarah Peck Hines, beginning Monday, November 10th. All students, professional men and women wishing lessons in this department will call on Miss Hines at 807 Ann street. 'Phone 723.—Advertisement.

LOCAL DOTS.

—The revenue cutter Seminole returned to port yesterday after cruising for several days off Hatteras in search of a derelict.

—Walter C. Benson, Esq., has moved his law offices from No. 210 Princess street to the third floor of the Atlantic Trust & Banking Co. building.

—License was issued yesterday for the marriage of Mr. Eugene S. Waddell and Miss Cornelia McFadgen, of this city, daughter of Mrs. J. McFadgen, of Pender county.

—The monthly meeting of the Board of Navigation and Pilotage will be held this morning at 11 o'clock, at the office of the chairman, on North Fourth street. Routine matters will receive consideration.

—A building permit was issued yesterday to Mr. W. G. Whitehead for the erection of a 12-room residence on Fifth street, between Nun and Church, the estimated cost being $3,000.

—As will be seen by reference to an advertisement in today's paper, sealed bids are asked by the city for furnishing 1,000 feet 2 1-2-inch multiple woven, cotton, rubber-lined, fire hose. Bids are to be opened November 17th.

—Will Brandt, colored, was arrested yesterday by Constable Davis on a warrant issued by Justice Harriss, charging him with seduction under promise of marriage. The affidavit was made by Janie Pridgen, colored. The matter was settled by his marriage to the girl.

—Mr. B. C. Moore, the druggist, has purchased from Mr. J. A. Rivenbark a fawn, which he has placed on display in his show window on North Fourth street. He invites the public, especially the school children who have never seen a fawn, to see the exhibit. The fawn is about four months old.

—Willie Shaw, colored, was arrested yesterday by Patrolman C. E. Wood on a warrant sworn out by Tania Kostelos, charging him with assault with a deadly weapon. Kostelos alleges that Shaw drew a knife on him when they had a dispute about some matter. Shaw gave bond in the sum of $50 for his appearance before the Recorder.

—Deeds were filed for record yesterday as follows: Wilmington Beach Corporation to trustees of Scottish Rite of Free Masonry of Wilmington, for $1,050, lots 6, 7 and 8, block 3, Wilmington Beach; Hoyt Kennedy and wife to A. S. Winstead, for $10 and other considerations, 80 acres of Myrtle Grove Sound, adjoining lands of Ben Hollis, et al.

—Suit was instituted in Superior Court yesterday by D. D. Boylan against H. H. Merritt. It is an action to establish a property line. The plaintic submitted to a non-suit at the recent term of court rather than go to trial at that time in view of the absence of witnesses. It has now been re-entered on the docket. Herbert McClammy, Esq., appears for the plaintiff.

THE ADVANCE IN MILK.

The Grand Jury, Convening Next Week, May Investigate.

It was reported yesterday that the grand jury which convenes next Monday may be asked to investigate the recent advance in milk in this city with a view of bringing indictments if it is found that the dairymen in entering into an agreement to increase the price of milk to a certain amount, are thought to be guilty of violating the State anti-trust law. In The Star about ten days ago there appeared an advertisement, signed by a number of dairymen, stating that on account of increased cost of operating their dairies that they were compelled to advance the price of milk to 12 1-2 cents a quart at retail and in cans to 40 cents a gallon. It is understood that the attention of one or two local attorneys has been called to the advertisement and the possible violation of the State anti-trust law, but whether any members of the bar have been consulted with a view of urging indictments is not known. However, it is understood that it is the purpose of some to bring the matter to the attention of the grand jury.

MEETING OF DIRECTORS.

Regular Monthly Session of Y. M. C. A. Officers.

The regular monthly meeting of the board of directors of the Y. M. C. A. was held last night at 8 o'clock in the office of the secretary at the Y. M. C. A. building. Mr. D. H. Penton, president, presided. The reports of the various committees were made which showed that the association is making rapid progress. The work has been handicapped somewhat on account of the failure of the electric fixtures to arive, but it is hoped that this part of the work can be completed within a few days. As soon as the building is finished arrangements for the formal opening will be made.

Young People Married.

Mr. John L. Rackley and Miss Bessie Strickland were married at the parsonage of Brooklyn Baptist church Sunday afternoon, the officiating minister being Rev. J. A. Sullivan. The ceremony was witnessed by a number of friends and relatives of the young couple. They are living at No. 412 Campbell street. The bride is from Magnolia, and has been in the city for some time visiting relatives. Mr. Rackley is an employe of the Tidewater Power Company.

Funeral of Mr. W. J. Player.

The body of Mr. W. J. Player, who died Sunday afternoon at the home of his daughter, Mrs. Maude Hobbs, No. 1514 Market street, was taken on the morning train yesterday to Burgaw, from which place it was carried to Bannerman's Bridge, where the funeral and interment took place. The remains were accompanied by relatives and a number of friends. Mr. Player was a native of Bannerman's Bridge, and was here on a visit to his daughter when he died.

QUESTION TO CONGRESS.

National Body Will Say Whether to Rebuild Pearl Harbor Dock.

Washington, Nov. 3.—Secretary Daniels announced today that the question whether the great naval dry dock at Pearl Harbor, Hawaii shall be completed will be submitted to Congress in December. As a large expenditure will be necessary to restore the upheaval of the dock's bottom and there is some question as to whether a like accident might not occur in the future, the Secretary thinks Congress should be consulted.

SHOT WIFE AND SELF.

Leaves His Babe in Care of Tender Hearted Woman.

Kansas City, Kas., Nov. 3.—Edward Ikerd, of Bedford, Ind., today shot and killed his wife and himself in a park here. He left a note addressed to Mrs. Ikerd. It read: "Good-bye little girl and baby. My one last wish was to make you happy but you could not be contended. I have no desire to live if I can not have you and babe. Take good care of her and never tell her what became of me."

..Theatrical..

Book readers will have a chance to see the fine production of Eugene Walter's dramatization of John Fox, Jr.'s popular novel, "The Trail of the Lonesome Pine," in which Isabelle Low appears as June, at the Academy next Monday, matinee and night. Essentially an American play, it is one that appeals most by reason of its peculiar charm: a charm that the author of the novel brought out not only most vividly in his narrative but which the dramatist has intensified and which Miss Lowe visualizes with consummate dramatic skill. The action is said to be tensest in the third act where June, on returning from the school in the Gap, feels that her young engineer believes her "not good enough for him." Here it is that the almost incomprehensible thing known as a feud among mountain families shows its entire head above the surface of the story and one realizes what a terrible hatred existed between the Falins and the Tollivers based on a quarrel of such long standing that its origin is almost forgotten.

It will be additonally interesting to Wilmington theatre-goers that a special matinee has been arranged for Monday afternoon, when the price of seats will go to but $1. Seats for both performances will be on sale at J. Hicks Bunting's drug store Friday morning at 8:30 o'clock.

A Warner Feature.

And once more Warner feature day at the popular Bijou, and such a one. The Warner star today (exclusive for this section and obtained only at big extra expense on the part of the Bijou management) will be "Jephthah's Daughter," in three tremendous reels. It is the greatest Biblical story since the days of the "Passion Play", in colors, and it is a masterful presentation of the Scriptural tragedy as related in the 11th chapter of Judges, and in the stellar roles will be seen the renowned English stars, Constance Crawley and Arthur Maud. It is something sensationally big and in which over a thousand people will be seen. But this will not be all of the good things for today. Another notable film will be the Vitagraph's "The Other Woman", in which a notable cast will appear, including charming Norma Talmedge and clever Leo Delaney. And the most pleasing, wonderful thing is that the Bijou will not raise its price of admission. It will remain 5 cents, afternoon and night.

Big Release at Grand.

The Grand has made special preparations for a great day today. It has one of the best and biggest bills in its history and will greet the hundreds who will flock to this amusement resort in the same old gracious, smiling manner. Today's bill will be toplined by a special two-reel release. It will be Essanay's "Tony the Fiddler." It is a daring, gripping tale of a bandit, who plays a lone hand. The bandit is also one of the leading citizens of the town and thereby manages to fool the sheriff and the people. But he is caught at last, only to later escape and afterwards to be captured in peculiar manner by a poor Italian musician. The stage-coach holdup scenes are indeed spectacular.

There is also the prince of all fun films on today in Kalem's "And the Watch Came Back." Jack Jones tried to lose a watch he got through mistake, but every time the watch comes back. Among its other features for today the Grand has a big educational film in "Historic Boston." It affords a swell visit to this historic city.

THE WRIGHT AIR BRAKE.

Further Details of Greensboro Man's Invention—Southern.

(Special Star Correspondence.)

Greensboro, N. C., Nov. 4.—As stated heretofore in this correspondence the recent order of the Southern Railway Company placing the Wright automatic air brake appliance has given new impetus to the invention and the company which has developed and is marketing the appliance. The appliance has been financed by local capital and Mr. Wright himself has given practically his all to the development of his pet child.

The road Mr. Wright has traveled has been that of the average inventor. It took years to develop the appliance and has taken almost as much time to convince railroad people of its practicability. Several roads have been using it on a small scale, but the Southern is the first road to determine to use the appliance upon its entire system.

Before the invention was fully and finally perfected 29 different models were made and tested. It is model No. 29 that will be used by the Southern. The appliance will not prevent head-on collisions but will prevent or lessen loss of life and property in any other sort of accident. The spreading rail, a broken rail, obstructions upon the tracks, breaking of arch bars or springs, the wringing off a journal, a split switch, the car leaving the center bearing are the frequent and unavoidable accidents and in these cases the brake works, applies the air automatically and stops the train quickly. By a patented valve the air is caused to work on the brakes gradualily and not cause trouble by a too quick and jerking stop. In fact, any accident that puts the car in an abnormal position sets the brakes at work.

The invention has passed the experimental stage. It is in use on a part of the C. & O. system and recently the brakes prevented a disastrous freight accident. On the Durham & Charlotte road, where it has been used for years, it has prevented many disastrous accidents. The device has the approval of the Inter-State Commerce Commission, and the time will soon come no doubt when it will be required on all cars.

The device is a simple appliance that is connected at small expense to any car having air brakes. So long as everything goes smoothly the appliance sleeps peacefully, but as soon as an abnormal or jarring position is given the car the silent watchman is at work and immediately applies the brake. Ordinary jolts incident to starting and stopping of the car upon the tracks does not affect it.

The Southern Railway is one of the big carriers, the premier system of the South. It has shown itself to be one of the most progressive in the country by adopting this brake. Many of the through trains already have the device, which could be put on in a few hours after they decided to adopt it. Ere long every passenger and freight car will have the "silent watchman" to guard the life and property it carries.

LOCATED WRECKED STEAMER.

Cargo Valued at $300,000 One Hundred and Forty Feet Under Water.

Ogdensburg, N. Y., Nov. 3.—Divers today located the wrecked steamer Keystone in 140 feet of water in Chippewa Bay, St. Lawrence river, and began repairing her bottom preparatory to raising her. The steamer sank October 26th, 1912, after striking a rock during a heavy fog. Her cargo is valued at $300,000.

A Doctor's First Question Is——?

"How Are Your Bowels?" A Simple Remedy that Guarantees Good Bowel Action.

LIEUT. G. W. VAUGHAN

Trace the origin of the commoner ills of life and almost invariably you will find that constipation was the cause. It is not to be expected that a mass of fermented food can remain in the system beyond its time without vitating the blood and affecting the nerves and muscles. It congests the entire body.

The results are colds, fevers, piles, headaches and nervousness, with its accompanying indigestion and sleeplessness. There is only one thing to do, and that is to remove the trouble; and when nature seems unable to do it, outside aid is necessary. You will find the best of all outside aids a remedy that many thousands are now using for this very purpose, called Dr. Caldwell's Syrup Pepsin. Many hundreds of letters are received by Dr. Caldwell telling of the good results obtained, and among the enthusiastic letters is one from Lieut. G. W. Vaughan, of 623 W. North St., Decatur, Ill. He is 72 and has had a bad liver and stomach since he came out of the army. He says he tried about everything, but never succeeded in getting permanent relief until he took Dr. Caldwell's Syrup Pepsin. He is never without a bottle in the house, and he is never without good health.

It has untold advantages over pills, salts and the various coarse cathartics and purgatives, for while these do but temporary good, Syrup Pepsin cures permanently. The effect of its action is to train the stomach and bowel muscles to do their work naturally again, and in a short time all forms of medicine can be dispensed with. It can be bought without inconvenience at any nearby drug store for fifty cents and one dollar a bottle, the latter size being regularly bought by those who already know its value. Results are always guaranteed or money will be refunded.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

"S. O. S." SIGNALS.

Yacht Being Dashed to Pieces on Shore of Texas.

Galveston, Texas, Nov. 4.—"S. O S." signals were received here today from the yacht Wakivo I, bound from New Orleans to Tampico, indicating the vessel is pounding to pieces on the shore somewhere near Aransas Pass. The tug Senator Bailey has gone to the rescue. The yacht is the property of the Huasteca Petroleum Campany, and was formerly owned in New York by L. Harkness. She carries a crew of 32.

Port Aransas, Tex., Nov. 4. — The steam yacht Wakiva, of the Huasteca Oil Company, bound from Tampico, Mexico, to this port, lost her way in a dense fog, and was cast ashore at 4 o'clock this morning, two miles north of here, on St. Joseph Island. The yacht lies in about 6 feet of water, and apparently is uninjured. It is thought she can be easily floated.

WILL NOT AID ARKANSAS.

Militia of That State Cut From National Guard.

Little Rock, Ark., Nov. 3.—Governor Hayes today received notification from Assistant Secretary of War Breckenridge that the United States government will render no aid to the Arkansas militia.

As the last Legislature refused to make an appropriation for the militia this ends practically all hope of preserving its organization.

"The War Department's action is due to the report of Captain Sloan, militia inspector of Arkansas, who found that a large quantity of valuable equipment loaned to the Arkansas National Guard was missing."

APPOINT GOVERNOR.

Garrison to Appoint Civil Officer Over Mindanao.

Manila, Nov. 4.—Governor General Harrison will start next Sunday on a tour of inspection of Mindanao, prior to the appointment of a Civil Governor. The American troops are being withdrawn from that territory, but the Mindanao Scouts and Constabulary remain, and the legislature has authorized the allotment of five extra companies of constabulary to replace the Americans.

Wewoka, Okla., Nov. 4.—John Cudjo, negro, accused of the killing of Deputy Sheriff John Dennis, was captured late today and hanged to a telephone pole in front of the county court house. The mob dispersed after riddling the negro's body with bullets.

13TH ANNUAL MEETING.

Charlotte Entertains State Daughters of American Revolution.

Charlotte, N. C., Nov. 4.—The 13th annual meeting of the State Daughters of the American Revolution convened here today as the guests of the local Liberty Hall Chapter.

Features of the day's sessions were addresses by Mrs. William Cummings Story, president general, and Mrs. Charles W. Bassett, historian general, both of New York, and the unveiling of a sun dial erected by the local D. A. R., in memory of the trustees of old Liberty Hall Academy, suppressed by order of the king in 1771 and reestablished in 1777, a colonial school for women.

ALL-AMERICANS ON TOUR.

Star Track Team Leaves to Visit Australia—Those Going.

San Francisco, Nov. 4.—An all-American track team will leave here November 12th for an Australian tour.

The team will be composed of James Power, of the Boston Athletic Association, military champion of the United States and Canada, distance man; Alvah Meyer, New York Irish-American sprinter; Ruric Templeton, Olympic Club, San Francisco, hurdler, and Reginald Caughey, of Ukiah, Cal., weight man.

DIES FROM INJURIES.

Football Player Succumbs to Broken Neck.

Phoenixville, Pa., Nov. 4.—George H. Gay, of Blackington, Mass., former star player of the Ursinus College team, died in a hospital here today from a broken neck, received in a football game last Saturday.

Gay was playing full-back on the Union Club team against the Pottstown eleven, and was running with the ball when he was tackled from behind and thrown.

The Proposed Breakwater.

Baltimore Sun, Monday: "Congress having appropriated $1,400,000 for a preliminary survey for a harbor of refuge at Cape Lookout Shoals, it is proposed to construct a wall 8,000 feet long, 48 feet high and 2 1-2 feet above high water. The wall is to be 20 feet wide at the top, and when completed will cost $5,000,000. The proposed location is within the jurisdiction of the Fifth lighthouse district, which has headquarters at Baltimore."

Phoenix, Ariz., Nov. 4.—Olin Davis won the Los Angeles-Phoenix and San Diego Exposition automobile race today, reaching this city at 1:48 P. M.

DECLINE IN WHEAT MARKET

Lower Cables Yesterday Formed the Chief Cause for the Loss Which Ranged from Three-eighths to One-half Net.

Chicago, Nov. 4.—Lower cables today formed the chief cause of a decline in wheat, ranging from ⅜ to ½@½ net.

Sympathetically, other grain was carried downward, corn to a net loss of ¼@⅜ to ⅜@½, and oats to a drop of a shade to ¼@¼. Provisions also suffered from the general weakness, losing from 7½ to 20 cents, compared with the previous close.

Cash grain:

Wheat No. 2, red, 94½@95; No. 2, hard, 86¼@86½; No. 2, Northern, 87@88½; No. 2, Spring, 87@88¾.

Corn—No. 2, 71½@72; No. 2, white, 72; No. 2, yellow, 72@72½; No. 3, 71½@72.

Oats—No. 2, white, 41; standard, 39¾@40¾.

Wheat—December, 84⅝@85; May, 89⅝@89¾; July, 87.

Corn—December, 69¼@69¼ to 69¾; May, 70¼@70⅝; July, 69⅝@69¾.

Oats—December, 37⅝@37¾; May, 41⅝ to 41⅝@41¾; July, 41⅜.

Pork—January, 19.92½; May, 19.95.

Lard—January, 10.62½; May, 10.77½@10.80.

Ribs — January, 10.52½@10.55; May, 10.65.

DAUGHTRIDGE A CANDIDATE.

Announces Informally Will be in Race for Governor—Bonds.

(Special Star Correspondence.)

Tarboro, N. C., Nov. 4.—Lieutenant Governor E. L. Daughtridge, of Rocky Mount, who is here for the Edgecombe Fair, announced today to a number of friends that if nothing unforeseen happens, he will be a candidate for Governor in the next campaign. For some time his friends in this section of the State have been urging his candidacy, and according to custom the nomination will go to an eastern man.

Mr. Daughtridge has always taken an active interest in everything pertaining to agriculture and is widely known as the "Farmer's Friend." While the time to make a formal announcement is not yet ripe, this informal admittance will be of much interest to all of his friends throughout the State.

Mr. Dautridge represented North Carolina on the commission that visited Europe in the Spring to study foreign methods of dealing with rural credits, and last week was elected a director of the Southern Commercial Congress.

When bids were opened today by the County Commissioners for the $20,000 proposed road bonds and a similar amount for bridge bonds, it was found that there were two bidders who offered above par. The highest bid, everything considered in the way of expense, was that of a Chicago firm, which offered a bonus of $55 on each $20,000, with no expense attached for the issuance of the bonds. The board adjourned until next Monday when further action will be taken in reference to accepting or rejecting the bids.

CUTTER TO POWELL'S POINT.

Schooner Thelma R. Reported Sinking Off North Carolina Coast.

Washington, Nov. 4.—Capt. West, of the revenue cutter Pamlico, tonight telegraphed to the service here that he was leaving Beaufort at once to go to the aid of the schooner Thelma G. reported sinking off Powell's Point, N. C.

Capt. Joynes, of the cutter Miami, who went to look for the steam yacht Anahma, ashore off the east coast of Florida, reported tonight that he had found no trace of the yacht. Officials here believe that the Anahma went aground but succeeded in floating herself before the Miami arrived.

COAL DUST THE CAUSE

Of Recent Mine Explosion in New Mexico.

Dawson, N. M., Nov. 4.—Coal dust was the predominant force in the explosion that wrecked Mine No. 2 of the Stag-Caon Fuel Company, October 22nd, killing 263 men, according to a statement issued today by Rees H. Beddow, State mine inspector. It has not been determined what ignited the dust.

The statement declared that gas played little if any part in the explosion; that a week before the explosion the inspector had taken samples of air which were analyzed by the United States Bureau of Mines at Pittsburgh, and showed only nineteen one-hundredths of one per cent. of menthane. This the inspector points out is very low for a mine of that character. He says in the last ten days experts have been searching for gas but have not found enough anywhere in the mine to show in a safety lamp test.

WILL LIVE IN FLORIDA.

Former President of Mexico Will Stay at Miami.

Miami, Fla., Nov. 4.—Porfiro Diaz, former President of Mexico, will live in Miami the coming Winter, according to Rafael Ruesga, Mexican consul here. Senor Ruesga said today he expected the ex-President to arrive about December 1st. His family will accompany him.

Announcement of General Diaz's plans was made in a letter to Consul Ruesga. The consul said that Diaz, now in Europe, desires to reside in a warmer climate during the Winter, but is adverse to returning to Mexico unless summoned on account of political conditions.

With the aid of Senor Baraniff, a member of the Mexican Congress, Senor Ruesga is endeavoring to lease a cottage for General Diaz. The consul said tonight that a Winter home near that of William Jennings Bryan probably would be selected.

DAMAGED BY STORM.

Steam Yacht Off Florida Coast in a Perilous Condition.

Miami, Fla., Nov. 4.—With her foremast and rudder torn away by a violent storm Friday off Jupiter Light, the steam yacht Anital was towed into port here today badly damaged and leaking.

The vessel lost her rudder about noon Friday and drifted upon the Florida reefs, where the foremast and jib were blown away. When picked up by the tug Barnett the Anital's crew was suffering from lack of water and exhausted from long work at the pumps.

The Anital left Providence, R. I., October 16th for Havana in command of Capt. Willshere. The vessel is believed to be the one reported as the Anahma which was sighted Saturday flying distress signals.

THE WEATHER.

United States Department of Agriculture Weather Bureau.

November 5, 1913.

FARM LIFE SCHOOL.

First in State Opened This Week in Craven County.

(Special Star Correspondence.)

Newbern, N. C., Nov. 4.—Craven county's Farm Life School, the first of its kind in North Carolina, today opened for the Fall term. This school is located just a short distance from Vanceboro, within easy access to the Norfolk Southern Railroad and the site is one of the most desirable in the entire county.

For months the citizens of Craven county have been awaiting the opening of this school. After it was decided to erect the school there were numerous delays and the trustees of the school board felt at one time as though they had an endless task before them. However, work was a few months ago started and has been rushed forward just as rapidly as possible.

It had been intended at first to make the opening day a gala one in that section of the county; to have an elaborate programme which would include an address by Dr. J. Y. Joyner, State superintendent of public instruction and end up with a big dinner. The principal and the board finally decided that in order to get the school in operation just as soon as possible that this would not be done just at this time, but would be held over until later.

The school is under the supervision of Dr. J. E. Turlington, a teacher of marked ability and with him is a corps of the most efficient teachers and instructors that could be secured regardless of expense and the school board feel sure that they have a competent faculty. Already have a large number of pupils been enrolled and many applications are on file. The main object of the school will be to teach the farm boys and girls how to properly attend to their work, to teach them that there is just as good an opportunity on the farm as there is in the city and to show them where it will be best for them to till the soil.

NEWBERN POSTOFFICE.

Four Candidates in Race for Postmaster Basnight's Job.

(Special Star Correspondence.)

Newbern, N. C., Nov. 4.—Congressman John M. Faison, of this district, who has been in Newbern for the past few days making some preliminary investigations regarding the charges which have been made against Postmaster J. S. Basnight, has gone to Beaufort where, with Major Stickle, he will make an investigation of some waterway improvements.

Local situation with regard to the removal of Mr. Basnight is pretty well muddled just at this time. The trouble started a few weeks ago when Mr. Basnight appointed George Howard, a new man in the office, to fill a position as dispatching clerk, R. E. Smith, who had been in the office much longer than Mr. Howard, made a protest and this started the ball rolling.

A long list of charges are said to be preferred against the present postmaster and a concerted effort will be made to have him removed. An inspector will probably arrive here about the first of the coming week for the purpose of making an investigation.

There are four candidates for the office: John C. Thomas, Louis G. Daniels, S. H. Lane and Frank Weathersbee. Which of these gentlemen will get the place is a matter of speculation. The friends of each declare that they are sure their favorite will get the place. In the meantime the eyes of every local politician are turned toward the scene of conflict and developments are awaited with interest.

ROBT. R. BELLAMY.

COL. A. B. ANDREWS.

His 38th Anniversary With Southern Railway Appropriately Observed.

(Special Star Telegram.)

Raleigh, N. C., Nov. 4.—In celebration of the 38th anniversary of the connection of Col. A. B. Andrews, of this city, with the Southern Railway Company, and its predecessors, being vice president and in charge of the executive division of the system in this State, there was a unique ceremony here today in which the 76 attorneys of the company, constituting the law department in the State, presented to Colonel Andrews a bound volume containing personal letters from each of the attorneys expressing their esteem and appreciation for Vice President Andrews; also a handsome gold watch appropriately engraved. The volume of letters is richly bound in French morocco with gold clasp and suitable embossed title and dedication. The gift was gotten up by a special committee consisting of Clement Manly, Winston-Salem; Hon. D. F. Mason, Gastonia, and Thos. R. Rollins, Asheville. The presentation speech was by Clement Manly, chief counsel for the North Carolina division, with brief remarks by other counsel present, all paying tribute to Colonel Andrews and his work with the Southern, especially the great factor he has been in the development of Western Carolina through railroad operations. To all these Colonel Andrews replied most appreciatively, saying among other things that he is 72 years old now, has devoted his entire life to railroad service since 17 years old, except during the Civil War and he hopes to "die in harness."

M'MANIGAL RELEASED.

Poor Health Given as Reason Once Star Witness Given Freedom.

Los Angeles, Cal., Nov. 4.—The poor health of Ortie McManigal, the confessed dynamiter, was the reason given today by District Attorney John D. Fredericks for ordering what is believed to be his permanent release from the county jail. McManigal, coworker of the McNamara brothers and chief witness against 33 labor union officials who were sentenced to imprisonment for complicity in a Nation-wide dynamite conspiracy, has never been tried.

"McManigal has been in poor health for some time," Fredericks said today, "and he has been taken out of jail on the advice of a physician. He may be back in a few days, a few weeks or a few months."

Mr. Fredericks would give no further information.

According to jail attendants, McManigal's appetite and constantly increasing girth and weight indicated that his ill health may have been due to over-eating. They said that he had gone to a hospital to have a surgical operation performed to remove from his forehead a great scar by which he feared former associates might recognize him.

The Motorcycle Club, of Harrisburg, Pa., has offered to co-operate with the police department in regulating traffic.

SALE OF U. H. MATTER.

TAMMANY REPUDIATED: BAY STATE DEMOCRATIC

(Continued from Page 2.)

fourths of the vote for mayoralty candidates known, the defeat of Henry T. Hunt, present mayor of Cincinnati is conceded by the Democratic campaign committee. Judge Frederick S. Spiegel, the Republican nominee has a plurality estimated at from 3,000 to 4,000.

Mayor Hunt made his fight on the Republican city organization which formerly was controlled by George B. Cox.

Chicago, Nov. 4.—The voting of women in more than a score of towns in Southern Illinois, resulted in a slight increase in prohibition territory, the votes of the women being overwhelmingly in favor of the dry tickets.

Boston, Nov. 4.—Returns for Lieutenant Governor from 613 out of 1,125 election districts, not including Boston, gave Barry, Democrat 121,346; Cosgrove, Progressive 69,346; Goetting, Republican 104,681.

Cleveland, Nov. 4.—With but 19 scattered precincts to hear from Mayor Newton D. Baker, Democrat, was re-elected according to the official count tonight by a majority of 3,000 over Harry L. Davis, Republican. Baker's majority two years ago was 17,000.

New York, Nov. 4.—With all the police captains shifted to new precincts, 700 picked detectives assigned to arrest recognized criminals if they appeared to vote, and thousands of watchers of the Honest Ballot Association, at the polls, today's election was one of the quietest in years. There were only about 100 arrests for illegal voting. There was trouble at polling places in a few Eastside districts, but little elsewhere. The vote was the heaviest in the city in years.

MARLBORO FAIR OPENS.

Everything Points to Successful Show in All Departments.

Bennettsville, S. C., Nov. 4.—Everything was in readiness for the opening of the Marlboro County Fair this morning. The exhibits were representative of every interest in the county, and there are a large number of exhibits from other counties. The prize exhibit of David R. Coker, of Hartsville, which received the first prize at the State Fair in Columbia last week, is here, together with many other individual exhibits that are well worth the efforts that have been put forward in behalf of the fair.

The gates to the fair grounds were opened this morning at 9 o'clock. Forming on Fayetteville avenue in the city, an automobile parade was begun at 9:30 and at 10:30 the automobile floats passed in review before the judges' stand at the fair grounds.

At noon in the show ring double teams, single teams and saddle horses and ponies will be ridden by boys.

At 12:30 a baby show in the agricultural building was begun. At 4:30 in the afternoon the midway was opened. The train load of midway paraphernalia reached Bennettsville yesterday and was put in position at once. This is the first fair Marlboro county has ever had and the entire county is showing splendid spirit and interest.

VEGETABLES VS. MEAT.

Go Far, Says Hotel Men, Toward Cutting Cost of Living.

Excelsior Springs, Mo., Nov. 4.—More vegetables on the menu and not so many meats as a means of circumventing the high cost of living was one of the proposals discussed by the Missouri-Kansas-Oklahoma Hotel Men's Association at the opening session of its convention here.

According to Barney Alisky, of Kansas City, secretary of the association, it is the elaborate list of menus served in hotels that keeps the price of meats up and many patrons who order meats would prefer something else if they could get it.

Soda fountains serving a light luncheon, it was said, would greatly increase business by attracting patrons who had neither money, time nor appetite to face the bill of dining room or cafe. The convention will be in session two days, and according to Mr. Alisky, will take decisive action affecting the high cost of living before adjournment. About 400 delegates are in attendance.

POISON AS A CLASS.

Should be Dealt With in Legislation and Not Any One Form.

Washington, Nov. 4.—Restrictive action dealing with poisons as a class, instead of simply one phase of them, was urged in a letter sent today by Secretary McAdoo to Representative Mann, of Illinois. It was in reply to a request for an opinion from the Public Health Service in connection with the control of the sale of bichloride of mercury tablets.

Secretary McAdoo said there were a number of active poisons in common use and that any legislation should be based on inquiry and full hearings. He said that from a public health viewpoint the most effective inter-State traffic measure would be to prohibit the transportation of any medicine intended for human use when containing more than one safe adult dose for a human being.

Secretary McAdoo added that it would be undesirable to include in any measure the specific name of any one poison.

HAS CLOTHING OF LINCOLN.

Garments Include Overcoat Worn on Night of Shooting.

Washington, Nov. 4.—The overcoat Abraham Lincoln had on the night he was fatally shot in Ford's Theatre here nearly 50 years ago, has come to light, being in the possession of John M. Kirby, of this city, who also has obtained possession of a suit of clothes worn by the martyred President.

The clothing is in a good state of preservation. One shoulder of the overcoat, however, had been torn, evidently by a souvenir hunter. The garments show the huge size of Lincoln, an ordinary-sized man being lost in them.

Immediately after the death of Lincoln the clothes were lent to an artist who wished to paint a portrait of the President. Later they were used by a sculptress who made the statue which now stands in Statuary Hall in the capitol.

New Orleans, Nov. 4.—Nearly 900 delegates have arrived here to attend the annual convention of the Laundrymen's National Association, which was called to order this morning. Response to the address of welcome was made by George A. Crawford, Bridgeport, Conn. A special train from Cincinnati bringing delegates, arrived here today.

St. Johns, N. F., Nov. 4—The steamer Manchester Commerce, which struck an iceberg in the strait of Bell Isle Saturday morning was sighted off here today. The steamer was badly damaged. Her bow was crushed and she had a heavy list.

AFFAIRS AT DUNN.

Pleased With LaFollette—Cotton Receipts Off—Town Growing.

(Special Star Correspondence.)

Dunn, N. C., Nov. 4.—Senator Robert M. LaFollette spoke to a packed house here last week on "Representative Government," and those who had learned to admire the man from the newspaper reports were not disappointed in the real man. He came here as one of the speakers who have been secured through a lyceum course, and the subscribers feel that they almost got their money's worth in hearing LaFollette.

The Barnes Holliday Company, a local hardware concern doing the largest retail hardware business in the State, had a fine exhibit at the Fayetteville fair last week. They carried their large motor truck down with them and used it in conveying people back and forth to the fair grounds. Those who were fortunate to see their exhibit say it was one of the finest ever shown. This firm has the reputation of leading the South in the sale of stoves and ranges.

An interview with the cotton weigher here shows some interesting facts. He says the cotton crop is at least two weeks later than last year; in October the receipts were three bales ahead of the year before, but the receipts to date are over 1,100 bales behind.

The average receipts for Dunn are about 17,000 bales per year. So far this year only 7,000 bales have been marketed.

It seems that the town of Dunn is outgrowing even the expectations of the most progressive citizens. Last year four large rooms were added to the graded school, and it was thought this would take care of the situation for several years. Prof. J. B. Martin states that almost every foot of available space is now occupied by the new desks just installed, and that when the compulsory attendance law goes into effect next week he does not know what he will do with the children, as most of the rooms are already overcrowded.

GARRISON LEAVES PANAMA.

Gave His Impressions of Great Work Done On Canal.

Panama, Nov. 4.—The American Secretary of War, Lindley M. Garrison, and party, sailed for New York this afternoon from Colon. Before leaving Panama the secretary gave his impressions of the canal.

"I think," said he, "it is work of magnificent import, magnificently done. I have seen everything susceptible of inspection and literally it is one marvel succeeding another."

Asked as to when the canal would be opened to commerce, he replied:

"I don't think it wise to indulge in prophecies. Machinery of a character more extensive and complicated than any heretofore used and obstacles and a character never before encountered are factors which make it unwise for me to predict. No doubt, however, all that human ingenuity can accomplish in the way of speed and successful effort is being done and that day is not far distant when prediction will no longer be necessary."

With reference to future re-organization in order that the canal may be operated the secretary said the was not yet ready to indicate his views. He added:

"I have talked with Colonel Goethals and Governor Metcalf separately and together and am pleased to find that there is absolutely no truth in certain rumors that there was any disagreement between them and I regret that any one should have indicated anything of the kind existed."

ELECTION OF OFFICERS.

W. C. T. U. Re-elect Mrs. Stevens President of Organization.

Asbury Park, N. J., Nov. 4.—Election of officers occupied the attention today of the National Woman's Christian Temperance Union in annual convention here.

Mrs. Lillian M. N. Stevens, of Portland, Maine, president since 1898, was re-elected. She re-appointed as vice president at large Miss Anna A. Gordon, of Evanston, Ill. Other National officers were re-elected as follows:

Mrs. Francis P. Parks, Evanston, Ill., corresponding secretary; Mrs. Elizabeth Preston Anderson, Jamestown, N. D., recording secretary; Mrs. Elizabeth P. Hutchinson, Evanston, Ill., treasurer.

Mrs. Sarah H. Hoge, Lincoln, Va., was re-appointed assistant recording secretary.

LINE-UP CHANGED.

Yale 'Varsity Eleven Take Strenuous Practice Yesterday.

New Haven, Conn., Nov. 4.—Another big change was made in the line-up of the Yale 'Varsity eleven at practice today when Captain Ketcham was shifted to right end, Way taking h's place at guard. Fullback Wilson went in as quarterback and Dunn took his place. In response to the hurry call sent out for former players to assist in the coaching, Guy Hutchison, Ted Lilly, Ralph Bloomer and Tom Shevlin reported today.

READY TO WORK.

Governor Craig Leaves For Home, to Work Roads.

Raleigh, N. C., Nov. 4.—Governor Locke Craig left this afternoon for his home at Asheville, where on Wednesday nad Thursday, he will don overalls and work the roads, and contracts to shovel as much dirt as one man digs.

He has set aside these two days as Good Roads Days in North Carolina, and reports indicate that the days will be observed throughout the State.

Atlantic City, N. J., Nov. 4.—Mrs. J. W. Sindall, mother-in-law of John J. McGraw, manager of the New York National League baseball team, died suddenly on the board walk while returning from a church where she had attended mass. Mrs. Sindall, who had been ill from heart disease, felt an attack coming on and asked a policeman to get her a rolling chair. Before he could do so she collapsed and died. Mrs. Sindall lived on the outskirts of Baltimore and came here about a week ago in search of health. The body was taken to Baltimore.

Portland, Ore., Nov. 4.—Early returns from today's referendum election indicate that the workers' compensation act has been adopted by a vote of three to one. The act providing for the sterilization of habitual criminals appears to have carried by a narrow margin.

New York, Nov. 3.—Robert Laird Borden, premier of Canada, and Mrs. Borden who have been here on a few days leave tomorrow morning for White Sulphur Springs, Va., where they will spend the rest of the month.

Chicago, Nov. 4.—Mrs Emmeline Pankhurst tonight made the final public appearance of her stay in Chicago, speaking at the African Institutional church. She will leave tomorrow evening for Minneapolis.

Caracas, Venezuela, Nov. 4.—The Venezuelan government has decided to participate in the Panama-Pacific Exposition in 1915.

ANNOUNCE BRIDESMAIDS.

Full Details of White House Wedding Given Out.

Washington, Nov. 4.—Announcement was made at the White House tonight that Miss Margaret Wilson, eldest daughter of the President, would be maid of honor at the wedding of her sister, Miss Jessie Woodrow Wilson, to Francis B. Sayre, on November 25th at the White House. The bridesmaids will be Miss Eleanor Randolph Wilson, the youngest daughter of the President; Miss Mary G. White, of Baltimore, a college friend of Miss Jessie Wilson; Miss Adeline Mitchell Scott, the daughter of Prof. William B. Scott, of Princeton, and Miss Marjorie Brown, a daughter of Mrs. Wilson's cousin, Colonel E. T. Brown, of Atlanta, Ga.

Dr. Wilfred T. Grenfell with whom Mr. Sayre was associated as a mission worker in Labrador, is to be best man. The ushers will be Benjamin D. Burton, New York City, who graduated in 1912 from Williams College; Dr. Scoville Clarke, of Salem, Mass., with whom Mr. Sayre did mission work in Northern New Foundland; Dr. Gilbert Horax, of Montclair, N. J., a class mate of Mr. Sayre at Williams College in 1909 and now at the Johns Hopkins Medical School, and Charles Evans Hughes, Jr., a son of Justice Hughes, of the Supreme Court, and a class mate of Mr. Sayre at Harvard Law School.

Rev. Sylvester W. Beach, pastor of the First Presbyterian church at Princeton, which the Wilson family attended for years, will perform the ceremony.

SEABOARD DIVIDEND.

Being Discussed by Financiers of Baltimore Market.

Baltimore, Md., Nov. 4.—The 1 per cent. initial dividend on the preferred stock of the Seaboard Air Line foreshadows in the absence of the unexpected, the continuance of this distribution on a quarterly basis or at an annual rate of 4 per cent., says the Wall Street Journal.

There is $25,000,000 Seaboard Air Line preferred stock issued, of which $1,105,900 is held in th company's treasury. A 4 per cent. disbursement on the stock outstanding will, therefore, call for a distribution of $955,764, or slightly more than half of the amount the company earned for its stock in the fiscal year 1913, after paying the full 5 per cent. interest on $25,000,000 adjustment income bonds.

Officials of the company expect it to earn $2,000,000 for the stock in the current year. Inasmuch as the company is situated comfortably in respect to capital needs, has a working balance of over $1,500,000, not inclusive of $1,896,000 supplies and materials on hand, cash on hand of $4,500,000 and another $1,000,000 notes sold but not yet delivered, the outlook for future dividend declarations would seem to depend only on a continuance of fair business.

WON'T DEMAND INCREASE.

Conductors and Trainmen in West Not to Ask More Wages.

Chicago, Nov. 4.—The order of railroad conductors and the Brotherhood of Railway Trainmen of all of the Western railroads, will not join the firemen and enginemen in a demand for increases in wages, according to A. F. Whitney, vice president of the trainmen.

"The matter of increased pay was not taken up," said Vice President Whitney last night following the conclusion of the meeting here yesterday of the conductors and trainmen. "If any such demand is made later on it will not be the result of this meeting. In fact, I do not believe there will be any such demand."

Enginemen and firemen will meet here next Monday to consider wage demands. Railroad officials are said to have given notice that any request for more pay will be met with a counter demand for a decrease.

CHICAGO TRAINING HARD.

Will Try to Cop the Three Remaining Games of the Season.

Chicago, Nov. 4.—Heavy training for the University of Chicago football team in preparation for the three remaining games of the season in which the Maroon hopes to win the championship of the Western Conference, began today under the direction of Coach Stagg. Opponents yet to face Chicago are Northwestern, Minnesota and Wisconsin in the order named.

With the defeat of Illinois Saturday, Chicago now remains the only conference team which has not met defeat thus far this season. Minnesota, however, has not been defeated by a conference team. Chicago does not expect a hard battle with Northwestern but is preparing for hard games with Minnesota and Wisconsin.

BRYAN SIGNS TREATIES.

Peace Pact With Honduras and Agreement with Switzerland.

Washington, Nov. 4—Secretary Bryan and Minister Membreno, of Honduras, have signed a treaty embodying President Wilson's peace plan, announced by Mr. Bryan early in the present administration. Honduras is the fourth nation to conclude such a treaty with the United States. The others are Salvador, Panama and Guatemala.

Secretary Bryan and Ernest Baumann, charge of the Swiss legation, have signed a convention extending for another five years the general arbitration treaty between the two countries.

Washington, Nov. 4.—Comptroller of the Treasurer George E. Downey has decided that the provisions of the act of June 19th, 1912, requiring that government contracts provide an eight-hour day for mechanics and laborers, does not apply to the reclamation service. The reclamation service, he held, is governed by an act passed in 1902.

FRAIL, WEAKLY CHILD

Made Strong by Vinol.

So many cases like this are coming to our attention for the benefit of fathers and mothers of weak, sickly, ailing children in this vicinity we publish the following letter:

Mrs. J. P. Weatherford, Litchfield, Ill., says: "We have had an invalid child for the past nine years and until we began using Vinol, we sometimes thought there was little hope for him. He would have terrible coughing spells at night, and they would leave him so exhausted. We tried everything, but to no avail. At last some one suggested that we try Vinol, and we noticed a change in him from the very first. The coughing spells ceased and he gained in strength right along. We would not be without it and would advise parents who have frail and weakly children to try Vinol."

This is because the child needed the strengthening cod liver elements and the tonic iron that Vinol contains. No oil, delicious taste. Children love it. We give back your money if Vinol does not benefit. Robt. R. Bellamy, Druggist, Wilmington, N. C.

P. S—For rough, scaly skin, try our Saxo Salve. We guarantee it.

(advertisement.)

THIRD DIVISION ARRIVES.

Four More American Battleships Off Vera Cruz, Mexico.

Vera Cruz, Nov. 4.—The third division of the United States Atlantic fleet, comprising the four battleships Rhode Island, Virginia, Nebraska and New Jersey, arrived here at 6:15 o'clock this evening. The warships anchored outside the breakwater.

Copenhagen, Denmark, Nov. 3.—Price Collier, American author, died suddenly today while on a visit to Count Weddel. Mr. Collier was 53 years old and lived in Tuxedo Park, New York.

Advertisements inserted under this head, One Cent per word for each insertion, but no advertisement taken for less than 25c. Additional words, more than 25, One Cent per word. Unless the advertiser has a regular account, all advertisements under this head are STRICTLY CASH IN ADVANCE, the amount being too small to warrant a charge. The Star will send without charge a Postal Telegraph Messenger to any address in the city, for advertisements in this department, upon request by 'phone, to No. 51. Messengers will also call for Telegrams, Lettergrams or Cables for the Postal Telegraph Cable Company. No charge for collecting the telegrams, or advertisements for the Star. Telephone subscribers may at any time telephone their telegrams and bills will be rendered to suit the sender, daily, weekly or monthly. For this service, call "Postal Telegraph," but for advertisements always call the Star office, No. 51. Locals cannot be taken over the telephone—but upon request messenger will be dispatched to any part of the city for them.

4% The Bride's Savings Account

The day a girl is married she should start a Savings Bank Account if she has not one already. She can add to it the occasional extra dimes and dollars and the time will come when that Reserve Fund will be a most important thing. No bride is so wealthy that she does not need a Savings Fund.

This Bank allows 4 Per Cent. Interest on Savings Deposits.
